The two-year Associate Degree Nursing Curriculum prepares students to become competent registered nurses to give patient-centered care in hospitals and other health care agencies.

The curriculum provides students with nursing theory and clinical experiences that prepare them to be eligible to take the examination for licensure as a registered nurse, as defined by the Texas Board of Nursing.

Current LVNs may choose advanced placement, which has special requirements.

A grade point average (GPA) of at least 2.0 in the full nursing curriculum and a grade average of C or better in all courses will qualify the graduates to receive the Associate of Applied Science degree and to make application to the NCLEX-RN.

Students have five years to complete the Associate Degree Nursing Curriculum after official enrollment in the first Associate Degree Nursing course or three years if the student enters through advanced placement.

Successful completion of prerequisite and first-semester courses with a cumulative average of C or better will qualify students to apply for nursing assistant with the state of Texas.

Completion of RNSG 1216, 1128, 1125, 1161, 1430, 1533, 2362, 1126, RNSG 2460, and VNSG 1119 with a grade of C or better will qualify students to apply for the NCLEX-PN.

Advanced Placement for LVNs (Transition Course) (RNSG 1118, 1163, 1324, and 1128) is designed to appraise the LVNs theory base in nursing content and skills as well as introduce nursing theory not presented in tradition vocational nursing curricula.

After successful completion of the transition courses, the LVN is given academic credit for some nursing courses in the Associate Degree Nursing Program and is eligible to enter the second year of the program if all other criteria are met.
