NOTE: This is an 8-week course.

COVID 19 Notice:

McLennan Community College is committed to providing you with every resource you need to reach your academic goals including your safety. We will continue to monitor the evolving situation with COVID 19 and adjust our safety guidelines to make sure we offer a safe environment for you and our faculty. Course Description:

Coachings are regular rehearsal times with a faculty/staff accompanist. A student registered for coaching receives 15 rehearsals/performances with their coach/accompanist, including weekly rehearsals, studio/master class performances, student recitals and juries. Coachings provide students with ample time to work on all aspects of musical performance, from coordination of instrument/voice with accompaniment (pitch, intonation, rhythm, tempo) to interpretation (nuance, phrasing, rubato, style, diction, etc.).

May be repeated for credit

Semester Hours 1 (1 lec)

Prerequisites and/or Corequisites:

Applied Lessons

Course Notes and Instructor Recommendations:

This is a companion course to voice lessons, MUAP 1182. It differs from this section in its focus, which is not on vocal production, but on musical rehearsal/practice and learning repertoire.

You will need:

1. Two copies of your music. One is for you, the other for the instructor. The instructor's copy must be copied front and back and given to the instructor as soon as the music is assigned.
2. A pencil for making marks in the score.

The course curriculum for MUEN 1154 1182 satisfies the following Student Learning Outcome.

To engage in the creative process or interpretive performance and comprehend the physical and intellectual demands required of the author or visual or performing artist.

Reading at the college level means the ability to analyze and interpret a variety of printed materials -- books, articles, and documents. A core curriculum should offer students the opportunity to master both general methods of analyzing printed materials and specific methods for analyzing the subject matter of individual disciplines.

Critical thinking embraces methods for applying both qualitative and quantitative skills analytically and creatively to subject matter in order to evaluate arguments and to construct alternative strategies. Problem solving is one of the applications of critical thinking, used to address an identified task.

For this course it is expected that the student have basic computer skills such as basic word processing, saving, and copying files. This course also requires students to have basic internet skills including search skills, the ability to save and upload files, install plug-ins if necessary, and use email. The course uses the D2L(Brightspace) Learning platform and students are expected, through the first week orientation, to develop the skills needed to use the features related to this course.
