### **Course Description:**

This course is an introduction to the fundamental concepts of financial accounting as prescribed by U.S. generally accepted accounting principles (GAAP) as applied to transactions and events that affect business organizations. Students will examine the procedures and systems to accumulate, analyze, measure, and record financial transactions. Students will use recorded financial information to prepare an income statement, statement of stockholders' equity, a balance sheet, and a statement of cash flows to communicate the business entity's results of operations and financial position to users of financial information who are external to the company. Students will study the nature of assets, liabilities, and stockholders' equity while learning to use reported financial information for purposes of making decisions about the company. Students will be exposed to International Financial Reporting Standards (IFRS).

**Prerequisites and/or Corequisites:** Completion of ACNT 1303 with a "C" or better is highly recommended.

### **Course Notes and Instructor Recommendations:**

#### **Please read carefully through these important items**

1. Your course materials are supposed to be included with your tuition. You should have access to an electronic textbook and Pearson MyLab. **Pearson MyLab links are located under Content in Brightspace.**
2. Be prepared each week to download and/or print the notes for the assigned chapters and watch corresponding lecture videos. Each chapter has a folder with details on what to do for that particular chapter.
3. Use the outlines as a guide on what to study. We won't cover every topic in every chapter.
4. Read your text. I can't over-emphasize the value of reading the textbook. It often takes several exposures of this material before it really makes sense. Accounting is a subject that truly needs to be understood, not memorized.
5. Do the practice versions of the homework assignments in MyLab. The practice versions will say "Practice Only" in the assignment title. You can do the practice versions as many times as you want, and it will not affect your homework grade. Graded assignments are listed first in MyLab and the practice versions are listed at the bottom.
6. Make sure you complete the assignments that are for a grade and don't wait until the last minute.

7. Be prepared for a lot of repetition. Chapters 1-4 are foundational for chapters 5-14. If you don't understand the material in chapters 1-4, you will be lost in chapters 5-9. If you took Intro to Accounting, you should feel like chapters 1-4 are mostly review. Also, if you took intro to accounting, you will notice that the intro class is taught from the viewpoint of a sole proprietorship and this class is taught from the viewpoint of a corporation.
8. Contact me if you need clarification about anything.
9. When sending out class messages I will be using MCC's email system. Be sure to regularly check your MCC email account.

**To summarize, expect to spend time each week watching lecture videos as you fill in the outlines. This will simulate how we would cover the material in a face to face class. And again, you should also spend time reading the text and set aside time to do the assignments.** I especially recommend that you come out strong at the beginning of this class and try to read chapters 1-4 twice. Watching the lecture videos and reading twice will give you the 3 exposures that I think are necessary for this material to be understood rather than memorized. The more work you do at the beginning of the class on chapters 1-4, the easier it will make the rest of the material.

### Homework

Almost all your homework assignments will be done in MyLab. Do not put off working these assignments in MyLab until the last minute. Things don't always work right when using computers and the internet. Expect things to potentially go wrong. I will drop your 4 lowest homework grades.

### Quizzes & Final Exam

You will have at least a 4-day window to complete quizzes through MyLab. Each quiz may consist of multiple-choice questions and/or workout problems. There will be 6 quizzes and each quiz will cover 1-2 chapters. Rather than give exams, I give quizzes so that you can focus on studying 1-2 chapters at a time. Please see the detailed schedule for a list of chapters covered on each quiz. This class will have a comprehensive final exam. Details about what to study for the final exam are posted in Brightspace.

**Important:** Your first quiz and your final exam will be proctored. You will need a webcam with a microphone and reliable Internet service.

### Late Work, Attendance, and Make Up Work Policies:

#### Late Work:

Homework will have a late penalty of 5% per day until enough days have passed that you will not receive any credit. There are practice versions of the homework posted in MyLab that you can do as many times as you want without affecting your grade.

Quizzes will have a late penalty of 10% per day until enough days have passed that you will not receive any credit. All homework and quizzes will have a cut-off date the day before the final exam.

#### Attendance Policy:

Because this is an online course, your attendance will be based on participation in the homework assignments. Each homework assignment will be weighted equally for purposes of attendance. Missing 25% of the homework assignments would be the equivalent of accumulating an absence rate of 25%.

# Principles of Financial Accounting

## Acct 2301\_80

---

Absence from 25 percent of scheduled homework assignments will be taken as evidence that you do not intend to complete the course. If your 25 percent absences are accumulated **before** the official drop date, you will receive a grade of **W**. If your 25 percent absences are reached **after** the official drop date, you will most likely receive an **F** for non-completion of the course.
