Course Description:

In this class you will learn to analyze, classify, and record business transactions in a manual and computerized environment. This class will emphasize understanding the complete accounting cycle and preparing financial statements, bank reconciliations, and basic payroll. This class may not be counted toward the associate degree if taken after successful completion of ACCT 2301.

Prerequisites and/or Corequisites:

None.

Course Notes and Instructor Recommendations:

Accounting does not come easy for most; you must put in the work to get good results.

To be successful in this course, I strongly encourage you to do the following, in this order:

1. **Read** the textbook while taking notes of key terms and concepts before the lecture.
2. **Complete the provided notes** during lecture, be present and engage yourself. Review your notes as soon as possible after class, even rewriting them.
3. **Practice, practice, practice!** There is a “DEMONSTRATION PROBLEM” at the end of each chapter with solution. These are excellent practice as the answers are provided for you. You may also work any extra problems in your workbook, which I am happy to review for you.
4. **Review.** Go back to the book or videos for additional explanation needed.
5. **Seek help!** MCC offers FREE **tutoring!** Academic Support and Tutoring offers help online via Zoom and in person. For more information visit <https://www.mclennan.edu/academic-support-and-tutoring/>. Of course, you are always welcome to ask me questions.

You are responsible for keeping up with assignment due dates. Most assignments are due Mondays by 11 pm; if it's a Monday assume something is due. Keep in mind there may be changes as we progress. Any changes will be communicated through Brightspace announcements and weekly modules.

You are expected to regularly check your McLennan email account and Brightspace for any updates. I occasionally send emails, although most communication will be made through Brightspace announcements.

Course Grading Information:

Grades will be based on the following system:

Homework	A = 90 – 100%
Quizzes	B = 80 – 89%
Exams	C = 70 – 79%
Projects	D = 60 – 69%
Final Exam	F = 0 – 59%
Total	

Almost all assignments, with the exception of the projects, will be given online through MyLab. The midterm and final exam will be proctored to ensure the integrity of the testing process. If campus remains open, alternative testing sites will be available on campus. More detailed information will be given regarding proctoring as we progress through the course.

For grades, check the Brightspace gradebook. While grades are also in MyLab, these are not weighted properly, and therefore will not be an accurate reflection of each grade category.

HW – Homework: There will be one assignment for each chapter covered (8 total). At the end of the course, **I will drop the lowest homework grade.** When working through the homework problems, I encourage you to think through it, asking yourself why the other options are incorrect.

- Homework assignments are located under Brightspace > Content > MyLab Accounting > MyLab Accounting All Assignments.
- You have multiple attempts per problem and have 3 check my work attempts per question, except for multiple choice questions. For those, you will only have two attempts.
- **There is an “Ask My Instructor” feature within MyLab. Please use this to send me questions, as this sends me a message and allows me to see exactly what you are viewing.**

Quizzes: There will be 5 quizzes covering chapters 1-7.

- You will have two timed attempts on each quiz. The second attempt is given in case of any technical issues you may encounter. However, you may use the second attempt to improve your grade. **Your grade will reflect the second attempt, NOT the highest of the two scores.** At the end of the course, **I will drop the lowest quiz grade.**
- Quizzes are open book and notes; therefore, I strongly encourage you to complete the provided notes for each chapter. This will be a HUGE help. Even though exams are open book/notes, prepare! **Don’t be deceived in thinking the content will be easy.** Accounting is very analytical in nature.

Project: There are two projects, one in Excel and one using QuickBooks. You should expect to spend about 2-3 hours completing each project, depending on your understanding. More information will be provided.

Exams: There are two exams. One over chapters 1- 3 and the second covers chapters 4-8.

- **You will have only one attempt.**
- **Only paper notes are permitted.** Use of electronic notes will be considered cheating and treated as such.

Final: The final is comprehensive and covers chapters 1-8. While this may sound overwhelming, the first 5 chapters build on the previous ones. I consider these the foundation of accounting. Like the midterm, **you will have only one, timed attempt.**

- The final will be proctored. More details will be provided as the course progresses. This

includes recording of you, your screen, audio, and web traffic. In this event, you must have a webcam. If campus remains open, alternative test locations will be provided. Further instructions will be provided through Brightspace.

During exams and the final:

- All non-essential electronic devices must be turned off and put away. This includes, but is not limited to, smart watches, cell phones, cameras, iPods, MP3 players, laptops, headphones, earbuds etc.
- Phones will not be permitted during the exams.
- Notes must be in paper format.
- Electronic notes/resources are NOT permitted and if used will be considered cheating.
- These policies are essential to ensure the integrity of the testing process.

Cheating:

You are admitted to MCC with the expectation that you will display integrity in EVERY aspect of your work. Once you are enrolled, you have accepted responsibility for your actions.

Academic dishonesty is taken very seriously. Any student using unauthorized assistance (without permission) on any assignment:

1. will be given a 0 on the assignment, and
2. will not have the lowest homework and quiz grade dropped.

For a second offense, the student will automatically receive an F for the course and will be reported to Student Discipline for further tracking. As stated in the MCC Academic Integrity Statement (see link below), students who repeatedly commit acts of academic dishonesty will be subject to academic suspension from the college.

Late Work, Attendance, and Make Up Work Policies:

Late Work:

If you miss an assignment, you may complete it within one week, time permitting, after the due date with a **20% penalty**. Therefore, the highest grade possible after the due date is 80%. It is extremely difficult to catch up once you fall behind, and there is no extra credit or make up assignments, so please do not ask.

Attendance:

Attendance is based on the heaviest weighted assignment completed each week. For example, if there is a quiz due, attendance will be based on it and not homework.

- The attendance record is located under “Assessments” within Brightspace.
- You, whether present or absent, are responsible for all material presented or assigned for class and will be held accountable for such materials in the determination of course grades.

- Remember, at any point in the semester, up to and including the **drop date (October 25th)**, you can voluntarily drop the course. **Please contact Highlander Central (254-299-8622) prior to your drop request, to learn what impact this may have on you.**

As stated in MCC Policies and Procedures (B-II), absence from 25 percent of scheduled lecture and/or laboratory meetings will be taken as evidence that a student does not intend to complete the course, and the student will be withdrawn from the course with a grade of W.

Student Behavioral Expectations or Conduct Policy:

Students are expected to maintain classroom decorum that includes respect for other students and the instructor, prompt and regular attendance, and an attitude that seeks to take full advantage of this education opportunity. For additional information see the General Conduct Policy in the Highlander Guide.

When meeting via Zoom, participation is greatly encouraged, and clothing is required. **Please keep your video on** to create more of a presence in the meetings. However, be mindful that you can be seen. If needed, please feel free to stop your video and rejoin with video when you are able. We also ask that you observe Zoom etiquette when in class by turning your mute on when you are not active in the conversation to reduce background noise.
