Learning Framework
EDUC 1100 H21

Course Description:

EDUC 1100 – Learning Framework

A study of the a) research and theory in the psychology of learning, cognition, and motivation; b) factors that impact learning; and c), application of learning strategies. Theoretical models of strategic learning, cognition, and motivation serve as the conceptual basis for the introduction of college-level student academic strategies. Students use assessment instruments (e.g., learning inventories) to help them identify their own strengths and weaknesses as strategic learners. Students are ultimately expected to integrate and apply the learning skills discussed across their own academic programs and become effective and efficient learners. Students developing these skills should be able to continually draw from the theoretical models they have learned.

Classroom Assignments and Expectations

We will come to our classroom on alternate days for activities.

Course Objectives and/or Competencies:

Upon successful completion of the course, the student will:

1. Increase the student's level of knowledge and use of motivational, behavioral, and cognitive factors that impact learning.
2. Improve the student's abilities and actions in learning and study strategies.
3. Provide student preparation for the rigors of a college education.
4. Provide students with an overview of the emotional intelligence skills they will need to be successful in the college environment.

Course Grading Information

This course is comprised of a variety of activities. These activities include discussion boards, reflection papers, core activities, in and on-line activities, and a final project.

Your grades are weighted per the assignment category. A **weighted** score is the average of a set of **grades**, where each set carries a different amount of importance. For example, as you can see by the chart below, the core activities make up 30% of your grade versus the discussion boards which are worth 10%. This means that you could do all your discussion boards, but that 100% would not be worth even some of your core activities being completed.

Assignment Category	%
Weekly Activities	20
Chapter Readings	15
Discussion Boards	10
Core Activities	30
Reflective Paper	10
Final Exam	15
Total	100

Grading Scale:

Letter Grade	A	B	C	D	F
Total Points	100 – 90	89 – 80	79 – 70	69 – 60	59 or Below

As this is a blended course, attendance is expected. There will be in-class assignments that go towards weekly activities. Too many absences can result in a lower grade.

Student Behavioral Expectations or Conduct Policy:

In both the face-to-face and online environments, students are expected to maintain classroom decorum that includes respect for other students and the instructor, prompt and regular attendance, and an attitude that seeks to take full advantage of the education opportunity.

While honest discussion and debate of topics is expected and encouraged, such interactions should not involve aggressive, derogatory, or involve hostile behaviors (verbal or otherwise). The instructor reserves the right to act to protect the decorum of the learning environment and the image of MCC.

If you are using Zoom to meet with the professor and/or other students, please ensure that you are dressed appropriately and are in a location where you can focus on your responsibilities as a student. Example: It is not appropriate to attend a Zoom class while lying in bed and/or half dressed. Please be respectful of others and mute yourself if background noise will be a problem.

Ethics:

Cheating will not be tolerated. Any student found cheating will be subject to grade reduction, receiving a zero on assignments that involve cheating/plagiarism, and/or dismissal from the course.

Examples of cheating include but are not limited to:

- Copying the work of another student
- Seeking excused absences/tardiness under false pretenses
- Plagiarism (claiming as your own work the work of another)

This course will teach you to think critically. Critical thinking is essential for an educator. Please maintain your integrity and do your own work – there is no reason to cheat in this, or any other course.

Discussion Boards

After reviewing the week's material for an online instruction week, you will be asked to respond to a prompt that will be provided in the module and discussion board. The initial response should be well thought out and substantial enough to indicate that you have a firm grasp on the week's materials. You must then respond to two classmates with substantial posts. Responds like "I agree" or "Good point" will not be counted. Your responses should be at least 3-6 sentences long. Please do not text-speak, such as "LOL" or "BFF" as these will not count either. Avoid posting in ALL CAPS as this looks like YOU ARE YELLING at the other student.

Late Work Policies:

Late work is typically not accepted. However, I am not unreasonable. Under certain, documented circumstances (example: documented serious illness/injury of self or immediate relative), I will consider accepting late work. ***Communication is very important*** – if you are experiencing extenuating circumstances, please reach out to me so we can develop a plan for you to be successful despite your circumstances.

Attendance

Discussion board posts on Brightspace will be considered classroom participation due to this being a hybrid course. Should you not participate this can be considered an absence. Therefore, it is very important that you complete your discussion board assignments on time and thoroughly. These posts should be respectful and appropriately address the topic of the prompt. Please pay attention to normal conventions of writing – use capitalization, punctuation, and spelling so your thoughts are clear to the professor and your classmates.
