## **Course Notes and Instructor Recommendations:**

- Success in this course requires a commitment from the student to reading and following
  directions, specifically due dates. Online courses require students to spend a great
  amount of time reading, studying, reviewing materials, and researching. To be
  successful, be prepared to dedicate the time necessary and accommodate your schedule
  accordingly.
- Students are expected to adhere to the posted deadlines for completing all work weekly. The deadlines are **not** optional.
- Students will need the textbooks and materials required for this online course. These are
  the primary sources of information. However, read the posted power-points and watch
  the videos, as they will provide additional information and will help prepare you to be
  successful in this course.
- Since this is an online course, all communication will be delivered via Brightspace and student email. It is **required** that you check your student email and Brightspace on a **daily** basis. Access to your student email can be set up through this link: <a href="https://www.mclennan.edu/student-email/">www.mclennan.edu/student-email/</a>.
- Any student found to be cheating will receive an automatic zero if cheating is evident.
   A second offense will result in automatic failure of the class and program. Cheating is not tolerated.
- If you feel that you may have a technical problem or if your computer crashes, you are **still expected** to turn your work in by the posted due date. Have an alternate location available in case this happens. One alternate location to be considered is MCC's library, which provides computers for student use.

## <u>Late Work, Attendance, and Make Up Work Policies:</u> Unit Work:

Students are encouraged to **complete and submit work early in the week**. You have the ability to check your submitted work via Brightspace. If you see an error in the submission, you have another chance to resubmit the assignment correctly at any point before the due date.

Based on the nature of this course, you will easily fall behind by submitting work late. Weekly coursework builds on each other as you progress through the course. You must complete weekly work accurately and on time to be able to move on to the next section. During the semester, you will be given **ONE** occasion to submit work late (excluding Exams, Midterm, or Final Exam) regardless of the circumstance, without receiving a grade deduction. After this **ONE** opportunity is used, any work incorrectly submitted or submitted past the due date will receive an automatic zero.

1311.87

Weekly work will be graded within 7 days of the due date. Feedback will be provided in the feedback area and/or through the D2L|Brightspace gradebook. You are **required** to **review the instructor's feedback on all work** – even if you are satisfied with the assigned grade.

#### **Exams:**

There will NOT be a make-up for any exams. There will be a total of 3 exams. The exams are timed and will be administered through **Respondus Lockdown browser**, but no webcam. Students are encouraged to complete all work prior to taking the exam, as this will better prepare you. Students will receive a score for exams almost immediately and/or within 48 hours after the due date. Due dates are given on Brightspace.

#### **Midterm and Final Exam:**

There will NOT be a make-up for the Midterm Exam nor the Final Exam. I will not reset the Midterm Exam nor the Final Exam. All students will take the Midterm Exam and Final Exam from home through Respondus Lockdown browser AND webcam.

Failure to submit a total of 8 items of coursework will show that the student has no intention of completing the course. The student will be dropped from the course.

## **Student Behavioral Expectations or Conduct Policy:**

Students are expected to use appropriate language and display respect for fellow students and instructor regardless of the method of communication: face to face, email, discussion board, or over the phone. Students are expected to be respectful toward the instructor and fellow students. Belligerent behavior used in any form of communication will result in immediate dismissal of the student from the course and will result in counseling with the instructor and the student's program director.

Students are expected to send emails with appropriate information such as student name, course title and number, reason for the email using clear English language (no text language) and all emails should be free of typos, grammatical, spelling, and other errors. Any inappropriate behavior or language may result in the student being dropped from the course immediately.

#### **Instructor Feedback:**

Students will receive responses via email within 48 hours. Unless the email is sent after 4:00 p.m. on Friday. Students are encouraged to complete work and contact the instructor with questions regarding the class, assignments, etc. early in the week as there will be no responses after the time noted above until Monday morning after 8:00 a.m.

#### **Emails:**

1311.87

Emails should be sent using your student email. Always identify yourself and the course you are enrolled in, the reason for your email, and use clear English language. At times the instructor may have an extenuating circumstance or may be prohibited from responding (according to the above information) due to conference attendance or other required activities.
