Course Notes and Instructor Recommendations

- The Instructor Plan, assignment sheets, and other documents are available on Brightspace. Check back frequently to ensure you are up to date on course content.
- Online learning requires a great deal of personal discipline and planning. Please make sure you are doing what you need to stay on top of assignments and projects.
- I am here to help! If you need clarification or would like me to look at a project or outline, please do not hesitate to ask. It is up to you to take initiative and ask for help.

Assignments

Project 1: Simulated Interview

For this project, you will be paired with a partner and will conduct 2 simulated Zoom interviews. Each student will participate in one interview as the interviewer and one interview and the interviewee. Prior to conducting the interviews in class, each student will locate a job description for a job/internship they are individually interested in, prepare appropriate interview documents, and develop a schedule of questions for interviewing their partner for their selected position.

Project 2: Group Facilitation of a Meeting

For this project, you will work with a group to identify a problem that can be presented to and addressed by other students during a problem-solving meeting. During this meeting your group will provide your audience with relevant information about the problem, facilitate discussion with class participants to generate potential solutions for the selected problem, and finally aid the participants in reaching consensus on the best solution. For this project your group will also be preparing a meeting agenda and brief report that outlines the processes that will be used during the meeting.

Project 3: Training Presentation

For this project, you will work individually to develop a video presentation that will functionally train your audience how to perform a specific action or address a problem/issue of your choice. As part of this presentation you will use both outside support and visual aids to enhance the effectiveness of your instructional material. For this project you will also be submitting a full-sentence outline of your presentation.

Project 4: Sales Pitch

For this project, you will work individually to develop, record, and edit an audio podcast designed to persuasively convince your audience to purchase/support a product/cause/perspective of your choice. Your podcast will be structured using either the TED style or Monroe's Motivated Sequence depending on your selected topic and persuasive goal. For this project you will prepare a brief reflection paper.

Attendance Assignments

To ensure that you are keeping up with course content and to help solidify your understanding of various topics that are used throughout this course, there will be online attendance assignments that you will need to complete each week. These will typically take the form of a discussion board post, but they might also include other work depending on the topic. These assignments will be ungraded, however, since they are linked with attendance, failure to complete these assignments can result in being dropped from the course or a penalty to your grade.

*Note: More details about each of these assignments will be available on Brightspace.

Course Grading Information:

Each assignment in this course will receive a score out of the following possible points.

- Project 1 100
- Project 2 100
- Project 3 100
- Project 4 100

Your grade for the course will be based on your cumulative score out of a possible 400 points.

- A 360 and above
- B 320 – 359
- C 280 – 319
- D 240 – 279
- F below 240

Grading Notes:

- **Completion of each of the 4 major projects is necessary** to receive a passing grade in the course.
- Since there are no exams in this course, project grades are designed to evaluate and reflect both your performance of the required communication skills associated with the project as well as your understanding of the course concepts that relate to each project. As a result, attention to technical project details and course concepts in your development of these projects is just as important as demonstrating/performing effective communication skills.
- Grades for written project documents will be factored into your total project grade.
- Assignment guidelines and grading rubrics for all projects will be available ahead of time so you can make sure you are meeting project requirements.
- I do not round up grades and **extra credit** is never offered on an individual basis. If extra credit is offered, it will be offered to the entire class. **If you need to achieve a specific grade in this class**, I highly suggest you meet with me early in the term to discuss what you will need to do rather than asking for more points later in the term.

Course Policies

Attendance, Late Work, and Make Up Work Policies

Attendance is **mandatory**. Since this is an online course, your attendance will be taken based on your completion of the required online attendance activities and course projects.

- If your reason for being absent is recognized by the College as **excused**, please let me know ahead of time and email satisfactory documentation to me within 1 week of the absence/missed assignment. It is your responsibility to make up any course material missed.
- Following MCC policy, being absent from more than 25% of scheduled class meetings (4) will result in being dropped from the course. If you have already reached the maximum allowable drops, each absence will result in a 10-point deduction from your final grade.
- In regard to **late work**, it is your responsibility to make sure that your work is completed on time. Submit assignments early to ensure that if you experience technical issues they can be addressed before assignment deadlines. If you are not going to be able to complete an assignment or project by the scheduled due date, it is your responsibility to contact me **before the due date**. I am often willing to give students extra time for full credit, but only if they take the initiative and actively communicate with me in advance. If I do not hear from you before the due date, you will either receive a 10% penalty to your grade on the assignment upon completion or I will not accept your assignment for credit depending on the severity of assignment incompleteness and lack of communication.

Decorum

As an adult and college student, you are expected to present/conduct yourself appropriately. You are expected to demonstrate consistent maturity, respect, and positivity in your communication with myself and other students. As this is a shared communicative context, it is imperative that all exchanges be appropriate, civil, and constructive, and that the educational environment be tolerant and supportive.

Academic Honesty

Academic honesty is always expected. As such, plagiarism and cheating of any kind will not be tolerated. If you are caught in the act of cheating or turn in an assignment that is plagiarized in **ANY** way, you will receive an "F" for the assignment and be prosecuted according to the full extent of MCC guidelines. Click the following link for information about academic integrity, dishonesty, and cheating.

(www.mclennan.edu/academic-integrity)

Grading Philosophy

Grades are earned by you and assessed by me based both on 1) the caliber of scholarship that is demonstrated/submitted and 2) the extent to which it meets/exceeds established criteria. Therefore, while desire, motivation and effort are all highly prized attributes often necessary for academic advancement, it is only the measurable manifestation of these qualities that I can and will evaluate.

Assignment Feedback and Grade Questions

If you would like feedback on an assignment prior to turning it in, I would be happy to look at your work. Please allow adequate time for material to be reviewed so that substantive comments can be provided. Grades will be posted on Brightspace within 4 days of each submission deadline. Legitimate, substantive, and timely grade questions may be discussed privately and after at least one full day has passed since the respective graded material and feedback is returned to you. Be prepared to share with me your thoughtful, specific grade question(s) in a calm and respectful manner. An inquisitive versus accusative attitude/approach will be of much greater benefit to you.
