Methods of Teaching and Learning:

This course is based on reading, video lectures, and independent work. **NOTE: This is NOT a self-paced course, you have work due every week.**

1. It is imperative that you read each assigned chapter on your own before attempting any of the assignments or quizzes. My recommendation is to read the chapter all the way through once without stopping (better yet, do so while having the digital book read it aloud). Next read it a second time one paragraph at a time, pausing after each one to state out loud to yourself, what the main points of the paragraph were (research shows this to be the most effective way to study... not just in this class).
2. Once you complete the above, you're ready to complete the related Smartbook assignment. The Smartbook assignment for each chapter, will ask you questions in a variety of ways such as fill-in-the-blank, word-matching, etc. These different types of questions are designed to stimulate your brain in ways that help you understand the content and help you retain it. You must answer ALL questions to get any points for completing each Smartbook assignment.
3. In addition to the graded Smartbook assignments mentioned above, students will complete a short homework assignment for each assigned chapter that is designed to help students apply learned knowledge to real world scenarios.
4. And lastly, traditional quizzes and exams help ensure that you are studying and retaining the information you learned from the above techniques.

Course Attendance/Participation Guidelines:

If a student is not in attendance in accordance with the policies/guidelines of the class as outlined in the course syllabus as of the course census date, faculty are required to drop students from their class roster prior to certifying the respective class roster. A student's financial aid will be re-evaluated accordingly and the student will only receive funding for those courses attended as of the course census date.

Definitions

The terminology we use is important:

- Drops occur BEFORE the census date and do not count against the student's maximum withdrawal count of 6 classes, as defined by state law.
- Withdrawals occur AFTER the census date and count in the student's maximum withdrawal count of 6 classes.

Online Course Attendance Policy (Business Division)

Although this is an online course, per MCC policy, instructors are still required to track attendance/participation in some way and may drop students for failing to "virtually" attend at least 75% of a course. Thus, in accordance with this policy:

- If a student fails to complete and submit at least ONE introduction discussion board assignment, Smartbook assignment, or homework assignment, or quiz, before the census date (9/6) they will be **dropped** by the instructor ("Never Attended").
 - An email to the instructor or merely logging in to Brightspace does NOT count.
 - Students must make a good faith effort to complete a Smartbook assignment or quiz in order to get attendance credit for it. That is, don't think that you can get attendance credit by merely guessing at a couple of questions - the instructor will use his own discretion in deciding whether or not you have done enough to be counted "present" for any Smartbook assignment or quiz.
- Past the census date if a student misses a combined total of 7 Smartbook assignments and/or quizzes prior to the 60% point of the term (10/23), the instructor will **withdraw** the student from the course.
- If a student misses their 7th Smartbook and/or quiz after the 60% point of the term, the instructor will NOT withdraw the student, and the student is assigned the grade earned.
- Extensions on missed coursework may be granted by the instructor IF the student is granted an excused absence for 5 or more days during the week related to the missed coursework.

Absences are excused in accordance with MCC policy, which includes

- Authorized participation in official College functions (w documentation from faculty or staff)
- Personal illness (w documentation such as doctors note or medical payment receipt)
- An illness or a death in the immediate family (w documentation)

BUSINESS PRINCIPLES

BUSI 1301.o081

- Pregnant or Parenting Protections under Title IX and/or Texas State Education Code Chapter 51, Subchapter Z, Section 51.982 (w Title IX Office approval)
- Any excused absences as outlined in Section IV of this policy:

BUSINESS PRINCIPLES

BUSI 1301.o081

Smartbook Assignments: 15 assignments worth 13-14 points each = 200 points

Students must complete a Smartbook assignment for each chapter, every week of the semester. These assignments provide you with direct access to the textbook and utilize a quiz-like format to evaluate your understanding of the material covered via graded questions.

*NOTE: Smartbook assignments are designed test your comprehension, and the “confidence” you have in your comprehension, of a topic before you’ll be allowed to move to the next set of questions on subsequent topics. That is, missed questions, or answers you choose in which you say you are anything but “highly confident” about, impact the number of subsequent questions that are asked, thus the more accurate you are at answering the questions and the more you indicate you are highly confident in your answers, the quicker you’ll finish! Smartbook assignments for the week’s assigned chapters must be submitted no later than 11:59pm on Sunday nights. **Smartbook assignments may be completed early but not late.**

Chapter Homework Assignments: 15 assignments worth 6-7 points each = 100 points

Students must also complete a short homework assignment for each chapter, every week of the semester. These assignments provide the student with the opportunity to learn chapter concepts more fully by applying them to a real-world scenario. There is a homework assignment due each week by Sunday night at 11:59pm (see Brightspace for specific dates). **Homework assignments may be completed early, but not late.**

Chapter Quizzes: 15 quizzes worth 5-11 points each = 100 points

Students are required to take 15 short chapter quizzes; one every week of the semester. Each quiz has between 5 and 11 questions worth 1 point per question. You will take these quizzes in Brightspace, you can use your book, you can take up to 1 hour for each quiz, and you may attempt each quiz up to two times before the quiz deadline. Keep in mind however, that each time you attempt a quiz for the same chapter, you will get a different set of questions and your two scores are averaged. There is a chapter quiz due every Sunday night by 11:59pm (see Brightspace for specific dates). **Chapter quizzes may be completed early, but not late.**

Regular Exams: 4 Exams worth 100 points each

This class will require each student to take four regular exams. The exams will be taken in Brightspace on your own, each one will be comprised of 50 multiple choice questions, are open-book, and will cover all information contained in the textbook chapters since the previous exam. Exams will be open for several days before the *no-later-than* date shown in the course schedule. No exam scores will be dropped. **Regular exams may be taken late but will incur a 25% penalty for each day it is completed late... even for university excused absences.**

Optional Research Paper – up to 20 extra credit points

As we near the end of the semester, you have the option of completing a 3-4 page research paper on the topic of your choice from the list of topics found in the Optional Research Paper assignment instructions in

BUSINESS PRINCIPLES

BUSI 1301.0081

Brightspace. Completing this assignment may earn you **up to** 20 extra credit points (“up to” means that it will receive a score between 0 and 20). If you would like to complete this assignment, it must be submitted by the deadline stated in the course schedule. You may utilize AI to help you write and/or edit your paper, but it must otherwise be new/original work, have accurate information and sources, and must meet all assignment parameters from the assignment instructions.

Comprehensive Final Exam – 100 points

The comprehensive final exam must be completed on either Monday or Tuesday of finals week (see the course schedule for specific dates). It is comprised of 50 multiple choice questions, is open-book, and covers topics from every assigned chapter in the course. However, the *Final Exam Study Guide* available within the Final Exam page in Brightspace, provides the topic of every single question that will be on this exam. Thus you are encouraged to build a cheat-sheet for yourself as we go through the semester so that you can memorize the material from it, and refer to it during the exam... you’re welcome! **Unlike regular exams, the final exam cannot be taken late; that is, if you don’t submit it by the date/time deadline, you will receive a zero.**

Late Work

If you fail to complete a Smartbook assignment, homework, or a quiz by the due date, you will receive a zero. If you fail to take a regular exam by its due date, you may take it late but you will incur a 25% deduction for each day it is late. For example, if a regular exam is due on a Sunday, but you take it on Monday, the highest score you can possibly get is a 75; if you take it on Tuesday, the highest score you can possibly get is a 50; if you take it on Wednesday, the highest grade you can possibly get is a 25. *Note: **You may not complete any work beyond the date/time of the final exam; i.e., if you miss the final exam you will receive a zero.**

Only under the most extreme circumstances will late coursework policies be changed for a student - i.e., the student was in the hospital for the five days preceding the due date, or had a death in the immediate family (both require verifiable documentation). Therefore, sad stories about being sick, oversleeping, forgetting, being stressed-out, “just needed a mental-health day”, work-conflicts, computer died, dog died, out of town for a wedding, argument with roommate, break-ups, heavy traffic, favorite Netflix show was cancelled, your candidate lost the election, etc., are NOT extreme circumstances... that’s just life.

If you know you are going to miss class when something is due or you know you are going to be busy around the time of a due date, simply turn the work in early, and/or go without sleep if you have to in order to meet deadlines - this is the exact same way things work in the professional business world. (FYI, if you miss an important deadline in the professional world you will likely get fired). Therefore, start getting in the habit of meeting deadlines regardless of what is going on in your life. If you want to make it in the corporate world or in the military, meet your deadlines – NO EXCUSES.

Student Behavioral Expectations or Conduct Policy: (Descriptions below are in addition to behaviors described in the “Professionalism” portion of this document)

Communication with the Instructor

Just like in the business world with your boss, before you call or send your instructor an email, try to find the answer yourself. That is, don’t email me a question when the answer you seek is clearly in the syllabus, course schedule, assignment instructions, and/or in Brightspace. If you need clarification on something, I HIGHLY prefer you simply ask me before or after class, that way I can better answer your question plus I get to interact with you personally. However, if you do decide to call or email me, I will try to respond within 24 hours but I do not respond after 8pm on weeknights, or on weekends at all.

- Per MCC email policy, students must use their MCC student email for all email communication with their professor. Accordingly, I will not open nor reply to emails from non-MCC email addresses.
- Do NOT use Brightspace Instant Message (IM) to contact me; that system does not notify me via email or voice message, thus it doesn’t ping my personal cell which I closely monitor

Respect

Please be respectful of your classmates and your instructor. This is a hallmark of professionalism; behaving as if everyone’s comfort and welfare is as important as your own. This means addressing me as Professor Greathouse (just “Professor” or “Sir” are also acceptable), and giving anyone who is speaking to the class your full attention. You can expect to be treated in a civil and professional manner by your instructor, and thus students will be expected to do the same. Violations of any of the above will result in losing your professionalism points for the day and could result in being dropped from the course.

Healthy Debate

Just as you will experience in the professional world after graduation, in this course you might be exposed to thoughts, opinions, and perspectives that are different from your own; this is a good thing because it exposes you to different ways of seeing things! As such, you will be expected to remain calm and professional, to objectively consider any differing thoughts and opinions, and if you wish, you may ask for more information and/or engage in respectful discussion as appropriate. It is indeed possible to disagree with someone AND remain calm, respectful, and professional!

Cheating

In this course, cheating means:

- Copying or in any way using someone else’s work
- Having someone else complete your work or working in pairs or teams

BUSINESS PRINCIPLES

BUSI 1301.o081

- Turning in a paper you didn't write, including use of AI unless specifically allowed by your instructor for a specific assignment (the *Turn-it-in* tool within Brightspace detects use of AI)
- Turning in a paper that is not original to this course (i.e., turning in a paper you wrote for another course... the *Turn-it-in* tool within Brightspace detects this)

If you are caught cheating once, you will receive a zero on the exam or assignment it relates to. If you are caught cheating twice, you will receive an F in this course (not merely dropped with a W).
