### **Course Description:**

A study of the a) research and theory in the psychology of learning, cognition, and motivation; b) factors that impact learning; and c), application of learning strategies. Theoretical models of strategic learning, cognition, and motivation serve as the conceptual basis for the introduction of college-level student academic strategies. Students use assessment instruments (e.g., learning inventories) to help them identify their own strengths and weaknesses as strategic learners.

Students are ultimately expected to integrate and apply the learning skills discussed across their own academic programs and become effective and efficient learners. Students developing these skills should be able to continually draw from the theoretical models they have learned. Semester Hours: 3

### **Course Attendance/Participation Guidelines:**

As this is an online course, attendance will be assessed via active and regular participation in discussion boards and submission of weekly assignments. A student whose weekly discussion board or module assignments are not submitted by the weekly due date will be counted “absent” for that week. Students who are absent from more than 25% of course modules will be withdrawn from the course by the instructor. Reinstatement into the course is only possible if the professor is satisfied that the student will resume regular participation and complete the course.

If a student is not in attendance in accordance with the policies/guidelines of the class as outlined in the course syllabus as of the course census date, faculty are required to drop students from their class roster prior to certifying the respective class roster. A student’s financial aid will be re-evaluated accordingly and the student will only receive funding for those courses attended as of the course census date.

### **Course Schedule:**

The following is a **TENTATIVE** schedule of these chapters and the primary topic for each week. Circumstances may cause the schedule to be changed. If changes are necessary, they will be announced in Brightspace.

Modules are open from Monday until Sunday each week. All assignments are due by **Sunday evening at 11:59 PM, except for initial discussion posts** which are due by **Thursday evening at 11:59 PM** so that you have time to respond to your classmates.

### **Course Grading Information:**

Your grades are weighted per the assignment category. A **weighted** score is the average of a set of **grades**, where each set carries a different amount of importance. For example, as you can see by the chart below, the seven core activities make up 30% of your grade versus the discussion boards which are worth 15%. This means that completing one of your core assignments is worth the same as 5 discussion board posts.

<b>Assignment Category</b>	<b>%</b>
Core Assignments	30
Weekly Activities	20
Weekly Reading Quizzes (CONNECT)	15
Discussion Boards	15
Final Project	20
Total	100

### **Grading Scale:**

<b>Letter Grade</b>	<b>A</b>	<b>B</b>	<b>C</b>	<b>D</b>	<b>F</b>
<b>Total Points</b>	100 – 90	89 – 80	79 – 70	69 – 60	59 or Below

### **Graded Assignments:**

Core Assignments: There are six assignments designated as core activities. These are common to students in all sections of Learning Framework. Instructions will be provided on Brightspace and/or explained in video lectures.

Reading Quizzes: As you read the e-textbook provided through Brightspace/CONNECT, there will be questions that pop-up throughout the chapter to check for understanding. To earn all of the points for this assignment, you must complete the chapter and answer the questions that appear.

Weekly Activities: Most weeks, you will complete an assignment related to the weekly topic/chapter reading.

## LEARNING FRAMEWORK

EDUC\_1300\_O081

---

Discussion Board Posts: You will complete weekly discussion board posts in this class, You will be asked to respond to a prompt provided by the instructor. To receive full credit, you must submit an initial response that is well thought out, relevant to the prompt, and substantial (at least 3-6 sentences). You must then respond to two classmates with substantial posts. Responses like “I agree” or “Good point” will not receive full credit. Your responses should be at least 3 sentences long. Please do not use text-speak, such as “LOL” or “BFF” as these will not count either. Avoid posting in ALL CAPS as this looks like YOU ARE YELLING at the other student.

Final Project: To summarize your learning in this course, you will choose 2 strategies you learned about in this course and present them to an audience of incoming freshman students. How you present this is up to you. Some suggestions are a formal paper, a PowerPoint, a Prezi, a video, a blog, or a podcast. More details, including rubrics for different types of presentations, will be available on Brightspace.

### **Late Work and Make Up Work Policies:**

Late work will be subject to a deduction of 5% per day it is late, beginning at 12:01 AM. For example, if it is 2 days late and you would have earned a 100%, you will now get a 90%. However, late work will **not be accepted for discussion board posts** as these are a real-time, interactive assignment.

Under certain, documented circumstances (example: documented serious illness/injury of self or immediate relative), the professor may excuse late work. **Communication is very important** – if you are experiencing extenuating circumstances, please reach out to me so we can develop a plan for you to be successful despite your circumstances.

### **Student Behavioral Expectations or Conduct Policy:**

In both the face-to-face and online environments, students are expected to maintain classroom decorum that includes respect for other students and the instructor, prompt and regular attendance, and an attitude that seeks to take full advantage of the education opportunity.

While honest discussion and debate of topics is expected and encouraged, such interactions should not involve aggressive, derogatory, or involve hostile behaviors
