Course Description:

EDUC 1300 – Learning Framework:

A study of the: 1) research and theory in the psychology of learning, cognition, and motivation; 2) factors that impact learning; and 3) application of learning strategies. Theoretical models of strategic learning, cognition, and motivation serve as the conceptual basis for the introduction of college-level student academic strategies. Students use assessment instruments (e.g., learning inventories) to help them identify their own strengths and weaknesses as strategic learners. Students are ultimately expected to integrate and apply the learning skills discussed across their own academic programs and become effective and efficient learners. Students developing these skills should be able to continually draw from the theoretical models they have learned. Semester hours 1 (1 lecture).

Prerequisites and/or Corequisites:

No pre-requisites

Course Notes and Instructor Recommendations:

If you wish to drop this class, you must email me from your MCC student account before 5 pm on the last day for student-initiated drops, with the request “Please drop me from COURSE ID and SECTION NUMBER.” An email that says something like, “I would like to drop...” or, “I was thinking about dropping...” or, “I was wondering if I should drop...” will *not* be considered a drop request. (*This is analogous to saying, “I would like to get married,” and does not mean anyone is going to automatically marry you today.*) If the email does not come from your student account, or if the request is verbal, I cannot drop you. Alternatively, there is a form you can fill out and have me sign before 5 pm on the last day for student-initiated drops.

Late Work, Attendance, and Make Up Work Policies:

Regular and punctual attendance is expected of all students, and each instructor will maintain a complete record of attendance for the entire length of each course, including online and hybrid courses. Students will be counted absent from class meetings missed, beginning with the first official day of classes. Students, whether present or absent, are responsible for all material presented or assigned for a course and will be held accountable for such materials in the determination of course grades. In the case of online and hybrid courses, attendance will be determined in terms of participation, as described in the course syllabus.

Absence from 25 percent of scheduled lecture and/or laboratory meetings will be taken as evidence that a student does not intend to complete the course, and the student will be withdrawn from the course with a grade of W. The instructor may reinstate the student if satisfied that the student will resume regular attendance and will complete the course. If the student's 25 percent absences are reached after the official drop date, the instructor may assign a W, if the student is passing and requests to be withdrawn. However, if a student who is not passing reaches the 25 percent point after the official drop date, the student will receive the grade they earned up to the point of their last class attendance. In extenuating circumstances, the instructor may assign a "W" to a student who is not passing

Attendance is mandatory. Attendance will be taken from the first graded task per

Learning Framework

EDUC _1300_O280

module. If you complete and submit that task for the unit, you will be marked as present. If you do not complete and submit the graded task for the week, you will be marked as absent. The tasks that will count towards being marked as either present or absent are marked in each module in your Brightspace course.

Per MCC policy, you may be automatically dropped after missing 25% of class work, or failure to complete and submit the first graded assignment for four of the sixteen modules for this course.

No late work will be accepted. However, in certain circumstances students will be permitted to make up classwork and assignments due to absences caused by authorized participation in official College functions, personal illness, an illness or death in the immediate family, or the observance of a religious holiday. It is the student's responsibility to inform the instructor of the reason for the absence, to provide proper documentation for the absence, and to do so in a timely fashion, i.e., the first class activity after the absence. The professor has the prerogative of determining whether a student may make up work missed due to absences for other reasons, or whether or not the student has provided adequate documentation to be eligible to submit late work to be graded. All "late" assignments need to be emailed to Dr. Powell or submitted in Brightspace if possible, with a copy of the written documentation for the absence by 12/3/21.

The assignments due in this course are to be turned in via Brightspace prior to the date and time noted on the calendar.

Students are expected to maintain classroom decorum that includes respect for other students and the instructor, prompt and regular attendance, and an attitude that seeks to take full advantage of the education opportunity." MCC Student Handbook

-Students are expected to attempt or complete all graded assignments to establish attendance rates and earn academic credit for the course. Students are expected to complete their work in a timely manner in accordance with the course calendar.

-The student must send all email messages to the instructor using their MCC provided student email account (firstinitiallastinitialstudentIDnumber@students.mclennan.edu). The instructor will send all emails to the students' MCC email accounts.
