Course Notes and Instructor Recommendations:

The syllabus serves as a guide for the expectations and completion of the course. Read the syllabus completely. Ask questions if the syllabus requires more explanation. Any changes will be communicated to students electronically. Dr. Driver is committed to student success, and believes appropriate participation and attendance achieves that goal.

Students enrolled in this asynchronous online course are expected to follow the attached schedule and participate and contribute daily. An online course requires more time commitment than a face-to-face course and reliable access to a computer. Technical issues from computer problems to poor Internet connectivity are not accepted as an excuse for missed or late assignments. Communication with your instructor and classmates is vital for this course and it is recommended you access and check your MCC email and the D2L Brightspace interface daily. Be sure to keep up with all readings and assignments in the course. If you encounter any difficulties, it is your responsibility to contact your instructor.

An asynchronous online course has no dedicated meeting times or locations.

All interactions take place via Brightspace or email. Though asynchronous, the course is scheduled with a structured progression of topics, content, assigned materials, and due dates for completion.

Methods of Teaching and Learning

A variety of methods will be used in teaching United States History II online, including the use of recorded presentations and videos, quizzes, and written assignments. Student assessment includes completion of reading quizzes and reading and written analysis of primary and secondary sources. These measures will assess the following course objectives and competencies. A departmental rubric may be used to assess different aspects of the course objectives (see below).

Course Objectives and/or Competencies

- **Critical Thinking:** Through lecture and a variety of objective strategies, students will be assessed on critical thinking ability. Objective examinations will specifically be used to assess critical thinking. Other assessment vehicles may include essays, portfolios, primary source objective exams, and presentations.
- **Communication:** Measures such as objective tests, written assignments, discussions, portfolios and presentations may be used to measure the student's ability to communicate.
- **Social Responsibility:** Because the teaching of history involves evoking examples of successes and failures in social responsibility, and the continual importance of this issue politically and personally today, social responsibility naturally is emphasized. Assessment measures may include readings, primary document exams, discussions, projects and essays.
- **Personal Responsibility:** Because the teaching of history also involves evoking examples of successes and failures in personal responsibility, and the consequences that personal choices can have, personal responsibility is also naturally emphasized. Assessment measures may include participation, readings, primary document exams, discussions, projects and essays.

Learning Outcomes

Upon successful completion of this course, students will:

1. Create an argument through use of historical evidence.

2. Analyze and interpret primary and secondary sources.
3. Analyze the effects of historical, social, political, economic, cultural, and global forces on this period of United States history.

Course Attendance/Participation Guidelines:

If a student is not in attendance in accordance with the policies/guidelines of the class as outlined in the course syllabus as of the course census date, faculty are required to drop students from their class roster prior to certifying the respective class roster. A student's financial aid will be re-evaluated accordingly, and the student will only receive funding for those courses attended as of the course census date.

Before the 60% point of the semester, a student who is absent for 25% or more of a face-to-face or blended course or who misses 25% or more of assigned work for an online course will be withdrawn from the course with a grade of W. A student may also request to be withdrawn with a grade of W before the 60% point of the semester. After the 60% point of the semester, the student may request to be withdrawn if the student is passing or be assigned the final grade earned at the end of the semester after grades have been updated to reflect missing work.

Students are expected to participate fully and regularly in the course. Please see other course policies for specific criteria related to the goal of student success in the course.

All contributions by Dr. Driver will be written or recorded, and he may add additional video or audio messages where relevant or complementary to the modules and content in the course.

Evaluation

United States History II is an introductory survey course into American history explored and researched for our collective understanding. The goal for students taking this course is knowledge of United States history following the Civil War and familiarity with the skills and methods of working as a historian. Students will leave the course with mastery over content and skills they can take to any major and education and career path. Completion of the following grading areas determines your course grade.

Criteria

Written Assignments

The course is designed to introduce students to topics in United States history and instruct them on analytical and critical thinking skills related to content, historical artifacts, documents (primary sources), and secondary sources. Materials are organized into modules within Brightspace. Due dates and instructions are also indicated in Brightspace.

When completing written assignments, students are expected to utilize analysis and critical thinking skills to explore historical knowledge and developments – do not just repeat historical facts. Written assignments are evaluated based on the quality of the response and use of assigned materials. All written assignments include specific instructions and expectations for completion (such as formatting, a minimum length of 250 words and cited materials) and are not available past the due date. All written assignments are required to be submitted as Word .doc or .docx files in Brightspace. Please note that no assignments will be accepted or offered acceptance via email.

Review of all required content and materials, except the textbook and class meeting lectures and presentations, are completed within Brightspace. No emailed materials are accepted. Students need to submit materials on time by the due dates. Information on the course late policy is included below.

Quizzes

Objective quizzes are assigned within Brightspace and specific class meetings to assess historical content and knowledge gained from presentations, content, and assigned readings.

- Set aside adequate time for you to review or complete assigned content and readings.
- Quizzes range in questions asked (typically between 20-40) and time allotted (30-60 minutes).
- Please review the schedule for information on start and due dates.

Exams

No comprehensive “exams” are assigned or completed in this course. There is no “final exam” for this course, only the last quiz completed in Brightspace. For scheduling purposes and alignment with the MCC academic calendar, the Civil War Quiz is labeled the “final exam.”

Checklists and Due Dates

Topical content modules within Brightspace include assigned materials (outside the textbook): overview pages, presentation videos, readings and videos, and assignments/quizzes. To assist you, checklists are included within each module to track your progress and meet due dates for each module, assignment, and quiz in the course. As policy, see below, no late work is accepted in the course and likewise, no extensions for missed assignments are considered or granted.

Check-Ins

Eight “check-in” assignments provide an additional attendance marker in the course but do not contribute to the overall course grade. Students will submit “check-ins” through Assignments and availability and due dates are provided in the schedule.

All final grades are reported in WebAdvisor, the final score provided in the Brightspace system is for informational purposes only and not reflected on your transcript.

A	90-100%	B	80-89%	C	70-79%	D	60-69%	F	59% and lower
---	---------	---	--------	---	--------	---	--------	---	---------------

Rubric Use

Rubrics are used for all assignments and available to view in Brightspace. Ratings within rubrics contain feedback and commentary for assignment criteria and points awarded for reported grades. Students are expected to be familiar with assignment rubrics and course and assessment outcomes indicated by the rubrics. Any questions about rubrics should be asked *prior to assignment submission*.

Late Policy

Ample time and notifications are provided by the schedule for due dates and coursework. I recommend you plan to complete your coursework based on these expectations, managing your time well, and preparing for the unexpected. Late work is not accepted in this course and postponed or changed due dates will be announced and confirmed by the instructor. All assignments are due on the date assigned.

Attendance and Make Up Work Policies

In the case of an emergency, students will be required to provide documentation of the emergency within seven days of the stated assignment due date and the work is due within the same time frame.

Attendance is recorded in this online course via two methods, first the completion of module contents and assignments or quizzes by stated due dates in this syllabus and duplicated within Brightspace. Your instructor reviews course progress and completion dates/times to facilitate and assist student success and attendance in the course. Therefore, not completing course content or missing an assignment counts as an absence but also contributes to the risk of not succeeding in the course and should be avoided. Two, by completing the check-in assignments by the due dates and times. The purpose of the second method is to share status and progress toward successful completion of the online course. Replies and responses to student check-ins are likely, but not guaranteed at the instructor's discretion. A register is included in Brightspace to account for both methods of attendance.

* Out of four written assignments, the lowest scoring is dropped in the student's reported final grade.

Student Behavioral Expectations and Conduct Policies

The instructor is committed to student success and believes appropriate classroom conduct helps achieve this goal. Students are expected to behave professionally and display respect for themselves, fellow students, the instructor, and the course, in all interactions. It is the student's responsibility to track their own progress in the course, starting from successful submission of assignments, to returned feedback and grades. Course interactions may be moderated by the instructor without warning. Please direct concerns regarding course behavior to the instructor.

This is a college course.

You are expected to perform professionally in this course and in your submitted work. The assignments and quizzes in the course are provided in both the schedule and breakdown.

No extra credit opportunities are offered for this course.

Bonus opportunities may be offered in the course but are not guaranteed or included in the syllabus. Do not ask for "extra credit" opportunities. You will receive the grade earned and that grade is a permanent entry included on your college transcript.

Students are expected to read the syllabus completely.

The instructor is not responsible for the student reading the syllabus. It is in the student's best interest to have completely read and reviewed the syllabus on day one, and to ask questions if any criteria, evaluation method, or course policy is not clear or requires more explanation for their understanding.

Academic Integrity

Do not be academically dishonest. In any case where any action deemed to be academically dishonest is discovered or determined, the student will be contacted, the penalty for the assignment may be a 0 grade, but revision or resubmission could be offered. The violation will be reported and potential for harsher penalties depending on the severity of the dishonesty exists, including failure of the course.

Academic dishonesty includes, but is not limited to:

- Cheating: copying answers; using unauthorized materials; stealing tests/assignments; substituting for another student; including unauthorized or “hidden” materials in submitted work to meet assignment expectations (may also fall under plagiarism).
- Plagiarism: using someone else’s work, ideas, writings, etc. without giving them credit. Anything that is in your papers should be in your own words. It is ok to quote someone, but make sure to use quotations and cite your source.
- Self-plagiarism is also NOT allowed: all course work should be new and original for this course.
- Collusion: unauthorized collaboration with one or more other persons on an assignment or assessment.
- Artificial Intelligence (AI, including Chat GPT): use of any AI software or interface to compose or complete any work in this course is not allowed, and is cheating and plagiarism.
- Sharing one’s work: any sharing of work with another classmate in any capacity will be considered academic dishonesty if it impacts either or both students’ grades on assignments.

Any violation of academic dishonesty will result in a 0 for the submitted assignment and written feedback regarding the identification of a violation of academic integrity will be provided to the student. An offer of resubmission or revised attempt may be offered in the case of suspected or identified academic dishonesty but is not guaranteed nor should it be expected if discovered. Use of AI in any assignment will result in an automatic 0 with no offer of resubmission or revision.

Turn It In

The Brightspace system sends submitted written work through a similarity checking system called Turn It In to confirm academic integrity. You can review the Turn It In similarity report for each written

assignment in Brightspace. Next to those grades will be a colored/percentage indicator that links to Turn It In and provides the student with a means to review their work compared with the Turn It In repository. Turn It In is a great resource to check your writing and citation of included examples and references from assigned materials in the course. Students should review the report following the submission of each assignment.

AI% Detection

The Turn It In system includes software to detect AI utilization in submitted assignments and materials.
