SECURITY ASSESSMENT & AUDITING
ITSY 2359 H001

Methods of Teaching and Learning:

The course uses reading, practice tests, performance based questions, lab exercises, discussions, an exam, and a capture the flag competition to instruct and analyze student mastery over the information and skills.

Course Objectives and/or Competencies:

Appraise security plan to ensure appropriate level of protection; assess network security design; audit network system based on security design; use relevant tools to assure security requirements; and review security policies and procedures on a regular basis.

Course Attendance/Participation Guidelines:

If a student is not in attendance in accordance with the policies/guidelines of the class as outlined in the course syllabus as of the course census date, faculty are required to drop students from their class roster prior to certifying the respective class roster. A student's financial aid will be re-evaluated accordingly and the student will only receive funding for those courses attended as of the course census date.

To be counted as attending BEFORE the census date, a student must complete and submit at least ONE assignment. Discussion boards, syllabus quizzes, the first set of homework, etc. are considered as meeting the criteria for an assignment. An email to the instructor does NOT count. Logging into Brightspace and accessing content does NOT count. Any student who fails to complete and submit at least one assignment prior to the census date will be dropped from the course.

Past the census date, students who fail to submit two consecutive modules of work without notification of an excused absence as per MCC policy prior to the 60% point of the term will be withdrawn from the course. If a student completes any part of a work module, they have "attended" and will not be withdrawn. If a student fails to submit two consecutive modules of work without notification of an excused absence as per MCC policy and the class is past the 60% point of the term, the instructor will NOT withdraw the student. The student will be assigned the grade earned at the end of the term.

This course will be conducted as a "hyflex" class. What does that mean exactly, and how does that impact you as a student? It means that you will have several options for "attending" the course, such as:

SECURITY ASSESSMENT & AUDITING
ITSY 2359 H001

In Person. Come to class, as you would for any other regular class.

Zoom. Log into Zoom using the link provided under content in the Zoom section on Brightspace to attend class via Zoom during class hours.

Online. On your own time. (No trips to campus required)

Regardless of the class attendance option(s) you choose, you must submit work by its deadline each week. Attendance will be taken via weekly discussion posts. All tasks must be completed by all students regardless of attendance method unless indicated otherwise in each topic's link.

Whatever choice you make for attendance is not set for the remainder of the semester. For example, you may attend a class session on campus on the first class day of the week but choose to complete assignments on your own instead of attending the second class day of the week. In other words, the choices are up to you each week; however, I would urge you to consider how you learn best as a student in making this decision. Students often work best by establishing a steady, regular routine.
