

WACO, TEXAS

**COURSE SYLLABUS
AND
INSTRUCTOR PLAN**

INTRODUCTION TO DATABASE

ITSW – 1307 - 87

JAN D. ROBERTSON

NOTE: This is a 16-week course.

INTRODUCTION TO DATABASE

ITSW 1307.87

Course Description:

Introduces database theory and the practical applications of a database. Students will identify database terminology and concepts, plan, define and design a database; design and generate tables, forms and reports; and devise and process queries. Semester Hours 3 (2 lec/2 lab)

Prerequisites and/or Corequisites:

None

Course Notes and Instructor Recommendations:

Notes: Exams for this course must be taken in the MCC Testing Center or at a preapproved remote location (proctored computer lab) set up by the student and approved by the end of week one. All exams are timed. The student must have access to Access 2016 software plus have a textbook by the end of week one. (Student may use the CIS lab if he/she does not have the software required.) Contact the instructor via email after registering and let her know what email address you plan to use for the course (jrobertson@mclennan.edu). Students must log on to Brightspace as of the first day of the semester and read/work through the orientation in the first announcement.

Recommendations: The instructor recommends anyone contemplating taking this course online have a working knowledge of using email, the Internet, and Win 10 and be able to type. In addition, the student should be self-disciplined and self-motivated and be able to read and interpret directions easily from the textbook as well as on Brightspace.

Instructor Information:

Instructor Name: Jan D. Robertson

MCC E-mail: jrobertson@mclennan.edu

Office Phone Number: 254-299-8218

Office Location: Health Professions Nursing building, Room 118

Office/Teacher Conference Hours: Posted next to office door

Other Instruction Information: B.S. and M.S. degrees

Required Text & Materials:

Title: New Perspectives on Microsoft Office 365 Access 2016 Intermediate

Author: Shellman/Vodnik

Edition: 1st

Publisher: Course Technology

ISBN-13: 9781305880290

MCC Bookstore Website: <http://www.mclennan.edu/bookstore/>

Student Support/Resources:

MCC provides a variety of services to support student success in the classroom and in your academic pursuits to include counseling, tutors, technology help desk, advising, financial aid, etc. A listing of these and the many other services available to our students is available at <http://www.mclennan.edu/campus-resource-guide/>

College personnel recognize that food, housing, and transportation are essential for student success. If you are having trouble securing these resources, we encourage you to contact a success coach by calling (254) 299-8226. Students can visit the Completion Center Monday-Friday from 8:00 a.m.-5:00 p.m. to meet with a success coach and receive additional resources and support to help reach academic and personal goals. Paulanne's Pantry (MCC's food pantry) is open 12:00 p.m.-1:00 p.m., Monday-Friday, without an appointment. The Completion Center and pantry are located on the Second Floor of the Student Services Center (SSC).

Minimum Technical Skills:

Students should have basic computer skills, knowledge of word processing software, and a basic understanding of how to use search engines and common web browsers.

Backup Plan for Technology:

In the event MCC's technology systems are down, you will be contacted/notified through your MCC student email address. Please note that all assignments and activities will be due on the date specified in the Instructor Plan, unless otherwise noted by the instructor.

* [Click Here for the Minimum System Requirements to Utilize MCC's D2L|Brightspace](http://www.mclennan.edu/center-for-teaching-and-learning/teaching-commons/requirements)
(www.mclennan.edu/center-for-teaching-and-learning/teaching-commons/requirements)

Click on the link above for information on the minimum system requirements needed to reliably access your courses in MCC's D2L|Brightspace learning management system.

Methods of Teaching and Learning:

Students will learn content by reading the textbook and completing assigned tutorials and case problems, watching video demonstrations from Brightspace, and reading FAQs available on Brightspace..

INTRODUCTION TO DATABASE

ITSW 1307.87

Course Objectives and/or Competencies:

- A. **Course Objectives:** This course provides hands-on experience with one of several popular Database Management Systems available for personal computers. The course begins with a discussion of the Windows operating environment. Windows file management techniques are reviewed and used. The DBMS (Database Management System) is presented in a problem-solving framework that mirrors actual business applications. Techniques of good database design are integrated throughout the course.
- B. **Course Competencies:** Upon successful completion of the course, the student will be able to:
1. Load the operating system, launch Windows, and use Windows commands and file utilities to:
 - a. Create a folder
 - b. List contents of a folder
 - c. Copy files or folders
 - d. Rename files or folders
 - e. Erase one or more files or folders
 2. Define and use the terms that reflect the basic concepts and language of database design and management.
 3. Design database structures based on the data to be stored.
 4. Perform the following activities:
 - a. Launch the DBMS
 - b. Create and modify database objects
 - c. Maintain a database table by adding, editing, and deleting records
 - d. Create queries to retrieve specific records or parts of records
 - e. Perform comparison and logical operations
 - f. Organize records by sorting and indexing
 - g. Use DBMS statistical commands
 - h. Apply the concepts of report generation and produce reports with one or two levels of subtotals
 - i. Apply the concepts of screen design and create custom screen formats
 - j. Explain and use the DBMS procedures for working with multi-table databases
 5. Allocate time to successfully complete lab assignments, prepare for exams and meet attendance requirements of his/her instructor.
 6. Take responsibility for all materials required for the class and computer work space.
 7. Collaborate during labs to provide and receive hands-on assistance with assignments.
 8. Interface with others in classroom from culturally diverse backgrounds.
 9. Acquire information from textbooks, from instructor's presentations, from collaborative learning with other students, and from hands-on lab assignments;

INTRODUCTION TO DATABASE

ITSW 1307.87

-
-
- and apply information to performing functions on the microcomputer.
 10. Analyze and evaluate solutions to hands-on lab assignments for completeness and correctness.
 11. Utilize microcomputers for hands-on lab assignments.
 12. Acquire an understanding of the functions of a Database Management System.
 13. Explore and apply the functions of a Database Management System.
 14. Acquire information on configurations of systems and hardware and database specifications and how to select technology to apply to a specific task.
 15. Perform database functions on a microcomputer system.

Foundation Competencies:

1. Understand written descriptions of the software's features and capabilities; read and interpret written instructions to complete tutorials on the computer; and access on-line help systems for reference materials.
2. Design and create layouts for forms and reports.
3. Use math functions, and define and create calculated fields for queries, reports and forms.
4. Assist each other by describing and explaining features of the software.
5. Receive verbal instructions for operating the computers and completing assignments.
6. Evaluate data, and design database structures to maintain the system's data.
7. Select database tools appropriate to the task, and identify and correct errors
8. Design and create queries to retrieve the information.
9. Act responsibly by completing assignments by due dates.
10. Act responsibly by checking provided solutions to verify the correctness of assignments.
11. Act accountably for academic integrity.

Course Outline or Schedule:

Tentative Calendar for Introduction to Database Online
SP 2020--Any changes, if needed, will be posted on Brightspace in an Announcement
Week 1: Confirmation and Orientation Quiz
Week 2: Windows review/Windows 10 Quiz
Week 3: Mod 1
Week 4: Mod 2
Week 5: Mod 3
Week 6: Reinforcement Labs
Week 7: EXAM 1
Week 8: Mod 4
Week 9: Mod 5
Week 10: Reinforcement Labs
Week 11: EXAM 2

INTRODUCTION TO DATABASE

ITSW 1307.87

Week 12: Mod 6
Week 13: Mod 7
Week 14: Mod 8
Week 15: Final Reinforcement Lab
Week 16: FINAL

Course Grading Information:

Case Problems = 20% (Case Problems/Reinforcement Labs/Modules)

Discussions = 5%

Unit Exam 1 = 25% (Hands-On)

Unit Exam 2 = 25% (Hands-On)

Final Exam = 25% (Comprehensive Hands-On)

The final grade for this course is determined by applying the following scale: 90-100 = A; 80-89 = B; 70-79 = C; 60-69 = D; 59 or below = F (Grades are not rounded.)

Exams consist of hands-on directions. Case problems and modules: ten points per error; twenty points per step missing (up to two steps). If more than two steps are missing, the assignment receives no credit. No make ups for assignments or exams without proof of emergency.

Late Work, Attendance, and Make Up Work Policies:

If a student misses an exam (according to the testing schedule) and has proof of emergency for missing that test date, the make-up test MUST be taken within two days of the original testing period for that unit. It is the student's responsibility to contact the instructor concerning a makeup. If the student misses a unit exam for some other reason or miss the make-up time frame, the final exam score will be counted twice. If the student misses a second unit exam and do NOT have written proof of emergency, a zero will be recorded for the missed unit exam.

Work must be submitted by the dates listed on the Assignments page. Late work will not be accepted without proof of emergency.

Students will be counted "present" based on turning in work and taking tests on time according to the tentative schedule (Assignments page). (This constitutes "participation" as mentioned in MCC's (Complete) Current Attendance Policy below.) One missed due date is the equivalent of 3 hours of class missed. Absence from 25 percent of due dates will be taken as evidence that a student does not intend to complete the course, and the student will be withdrawn from the course with a grade of W. If the student's 25 percent absences are reached after the official drop date (last day for student initiated drop), the instructor may assign a W, if the student is passing. However, if a student who is not passing reaches the 25 percent point after the official drop date, the student will receive an F. In extenuating circumstances, the instructor may assign a W to a student who is not passing.

Accommodations/ADA Statement

Any student who is a qualified individual with a disability may request reasonable accommodations to assist with providing equal access to educational opportunities. Students should contact the Accommodations Coordinator as soon as possible to provide documentation and make necessary arrangements. Once that process is completed, appropriate verification will be provided to the student and instructor. Please note that instructors are not required to provide classroom accommodations to students until appropriate verification has been provided by the Accommodations Coordinator. Instructors should not provide accommodations unless approved by the Accommodations Coordinator. For additional information, please visit mclennan.edu/disability.

Students with questions or who require assistance with disabilities involving physical, classroom, or testing accommodations should contact:

disabilities@mclennan.edu
