AND
INSTRUCTOR PLAN**

**MEDICAL RADIOLOGIC TECHNOLOGY
Clinical II
RADR - 1261- 01**

**Meredith Heffner
Deborah Quinn
Michelle Morphis**

NOTE: This is a 16-week course

Course Description:

RADR_1261 Clinical II – Radiologic Technology

Provides a health-related work-based learning experience that enables students to apply specialized occupational theory, skills, and concepts. Direct supervision is provided by the clinical professional. Detailed learning objectives are developed for each course by the faculty. On-site clinical instruction, evaluation and placement are the responsibility of the college faculty.

Clinical experiences are unpaid external learning experiences. Provides for competency-based clinical education in radiographic examinations in continuation with the student's clinical competency profile.

Successful completion of RADR courses in Semester I,
with a grade of “C” or better. Semester Hours 2 (12 clinical hours/week)

Prerequisites and/or Corequisites:

Completion of RADR 1260 with grade of C or better and concurrent enrollment in other prescribed Radiologic Technology courses.

Course Notes and Instructor Recommendations:

Handbook of Radiographic Positioning and Related Anatomy is recommended for the clinical rotations.

Instructor Information:

Program Director: Meredith Brown MS, RT(R)(ARRT)

MCC E-mail: mbrown@mcclennan.edu

Office Phone Number: 254-299-8342

Office Location: CSC C-116

Office/Teacher Conference Hours: see door schedule for availability

Fri by appt.

Clinical Coordinator/Professor

Name: Deborah Quinn BSHS, RT(R)(ARRT)

MCC E-mail: dquinn@mcclennan.edu

Office Phone Number: 254-299-8305

CLINICAL II MEDICAL RADIOLOGIC TECHNOLOGY
RADR 1261 01

Office Location: CSC C-117

Office/Teacher Conference Hours: see door schedule for availability

Other Instruction Information: Available at other times with appointment

Instructor

Name: Michelle Morphis BSIS, RT(R)(ARRT)

MCC E-mail: mmorphiss@mclennan.edu

Office Phone number: 254-2998584

Office Location: A14

Office/Teacher Conference Hours: see door schedule for availability

Other Instruction Information: Available at other times by appointment

Required Text & Materials:

Title: Textbook of Radiographic Positioning and Related Anatomy (2018)

Author: Lampignano, John P., Kendrick, Leslie E.

Edition: 9th

Publisher: Mosby-Elsevier

ISBN: 978-0-323-39966-1

Title: Textbook of Radiographic Positioning and Related Anatomy Workbook
(2014)

Author: Lampignano, John P., Kendrick, Leslie E.

Edition: 9th

Publisher: Mosby-Elsevier

ISBN: 978-0-323-48187-8

Course Notes and Instructor Recommendations:

Bontrager's Pocket Atlas –Handbook of Positioning and Techniques, 9th edition.

Bontrager Publishing, Inc. ISBN-978-0-323-48525-8 is recommended for the clinical rotations. It is not required. Students are encouraged to carry a pocket notepad.

The clinical logbook should be taken to clinical daily.

MCC Bookstore Website: <http://www.mclennan.edu/bookstore/>

Student Support/Resources:

MCC provides a variety of services to support student success in the classroom and in your academic pursuits to include counseling, tutors, technology help desk, advising, financial aid, etc. A listing of these and the many other services available to our students is available at

<http://www.mclennan.edu/campus-resource-guide/>

CLINICAL II MEDICAL RADIOLOGIC TECHNOLOGY
RADR 1261 01

College personnel recognize that food, housing, and transportation are essential for student success. If you are having trouble securing these resources, we encourage you to contact a success coach by calling (254) 299-8226. Students can visit the Completion Center Monday-Friday from 8:00 a.m.-5:00 p.m. to meet with a success coach and receive additional resources and support to help reach academic and personal goals. Paulanne's Pantry (MCC's food pantry) is open 12:00 p.m.-1:00 p.m., Monday-Friday, without an appointment. The Completion Center and pantry are located on the Second Floor of the Student Services Center (SSC).

Minimum Technical Skills:

Students should have basic computer skills, knowledge of word processing software, and a basic understanding of how to use search engines and common web browsers.

Backup Plan for Technology:

In the event MCC's technology systems are down, you will be contacted/notified through your MCC student email address. Please note that all assignments and activities will be due on the date specified in the Instructor Plan, unless otherwise noted by the instructor.

* **[Click Here for the Minimum System Requirements to Utilize MCC's D2L/Brightspace](#)**

(www.mclennan.edu/center-for-teaching-and-learning/teaching-commons/requirements)

Click on the link above for information on the minimum system requirements needed to reliably access your courses in MCC's D2L|Brightspace learning management system.

Methods of Teaching and Learning:

The clinical course consists of rotations in area hospitals and medical clinics. Students are directly supervised by Radiologic Technologists certified by the ARRT and licensed by the State of Texas. Students will perform radiographic exams and assist in radiographic procedures. As the student gains competency, they will perform exams without assistance, but remain under direct supervision. Students will evaluate images and perform tasks to understand image production while in the clinical setting. Students are expected to participate in "Class Day" activities scheduled on the MCC campus. These activities count as clinical attendance and will further evaluate the student's progress as a radiologic technology student.

Course Objectives and/or Competencies:

SCANS

Secretary's Commission on Achieving Necessary Skills

SCANS is an attempt to help make courses more relevant to the needs of a modern work force. SCANS is divided into two types of skills: competencies and foundations. Foundation skills are organized into the basic literacy and computational skills, the thinking skills necessary to put knowledge to work, and the personal qualities that make workers dedicated and trustworthy. The competencies are the abilities to manage resources, to work amicably and productively with others, to acquire and use information, to master complex systems, and to work with a variety of technologies. Both are required for successful performance in most jobs, and are definitely required for professions in the radiologic technology field.

COURSE OBJECTIVES

The student will:

1. Support the profession's Code of Ethics and comply with the Profession's Scope of Practice. (F01,F03)**
2. Demonstrate knowledge and skills relating to verbal, non-verbal, and written medical communication in areas of patient care and professional relationships. (C02,F01,F03)
3. Provide appropriate patient education for all examinations performed. (C02,F01,F03)
4. Provide for basic patient care, patient comfort, and anticipate the needs of the patient. (C01,C02,F01)
5. Properly operate medical imaging equipment and accessory devices as appropriate for the student's current level of training/experience. (C05,F01,F02)
6. Properly position the patient and required imaging equipment to perform radiographic examinations and procedures. (C05,F01,F02)
7. Exercise independent judgement and discretion in the performance of radiographic imaging procedures as appropriate for the student's level of training/experience. (F01,F03)

CLINICAL II MEDICAL RADIOLOGIC TECHNOLOGY
RADR 1261 01

8. Evaluate images with regard to technical quality in the areas of density, quality, patient positioning, centering, patient motion, and processing as appropriate for the student's level of training/experience. (C03,C04,C05,F02)
9. Demonstrate appropriate knowledge and skills relating to medical image processing. (C03,C05,F02)
10. Practice established principles of radiation protection for themselves, patients, and hospital staff. (C02,F01,F02)
11. Describe the anatomy and anatomical relationship of major bones, joints and processes. Identify same on drawings and radiographs. (C03,F01,F02)
12. List the correct central ray locations and the preferred size, type and position of film holders. (C03,F01,F02)
13. Discriminate between technically satisfactory and unsatisfactory radiography of the upper extremities, lower extremities, shoulder girdle, pelvic girdle and upper femur. Items to be considered include density, contrast, centering and overall positioning of the body parts. (C03,F01,F02)
14. List and describe routine procedures, and position the patients for the following exams: (C03,F01)

A. scapula	L. pelvis
B. A-C joints	M. S-I joints
C. clavicle	N. hip
D. shoulder	O. femur
E. humerus	P. knee
F. elbow	Q. leg
G. forearm	R. ankle
H. wrist	S. foot
I. hand	T. calcaneus
J. fingers	U. toes
K. thumb	
15. Students will perform competency exams in the extremity, chest, abdomen, shoulder and pelvic girdle categories. (C03,F02)
16. Observe examinations in which he or she is not an active participant. (F01)
17. Keep accurate records of examinations performed and observed on the forms provided by the instructor. (C01,F03)

CLINICAL II MEDICAL RADIOLOGIC TECHNOLOGY
RADR 1261 01

18. Change film badges between the 25th and 30th days of each month. Failure to make proper changes will result in termination of further clinical education. (C01,F03)
19. Report to clinical duty promptly. (C01,F03)
20. Display attention to duty regarding output, performance and time utilization. (C01,C04,F03)
21. Exhibit self control and composure in stressful situations.(F03)
22. Display honesty and integrity in the performance of clinical duty. (F03)
23. Provide a good quality of work by: (C01,C02,C03,C04,C05,F01,F02,F03)
 - A. displaying the ability to follow instructions.
 - B. organizing and completing work.
 - C. working independently when appropriate.
 - D. recognizing and attending to the needs of the patient.
 - E. recognizing his or her own limitations.
 - F. exercising proper judgment.
 - G. observing and reporting appropriately.
24. Display an eagerness to learn. (F03)
25. Exhibit cooperation, loyalty, ambition, and courtesy. (C02,F03)
26. Accept constructive criticism. (F03)
27. Maintain a neat and professional appearance. (F03)
28. Teach fellow students new skills. (CO2)
29. Aggressively pursue request for radiographic procedures. (CO2)

PEDIATRIC OBJECTIVES

The student should be able to:

Properly communicate examination requirements and procedures to the pediatric patient.

State the circumstances that require, or may require, the inclusion of comparison radiographs for the reading radiologist

Utilize acceptable methods of immobilization of the pediatric patient. This may include physical restraint, swaddling, the use of adhesive tape, compression bands, and/or specialized pediatric immobilization equipment

Practice the principles involved with radiation protection for the pediatric patient. Utilize proper collimation and shielding for the pediatric patient. Practice good radiation protection for all individuals in the exposure room. Employ proper immobilization by individuals other than radiographic personnel. Insure that needless repeat exposures are avoided.

Properly perform portable radiographs in the nursery utilizing the required principles of medical asepsis.

Modify and adapt standard radiographic positions/procedures to fit the needs and requirements of the pediatric patient

Modify radiographic techniques to decrease the impact of unexpected motion by the pediatric patient.

TRAUMA OBJECTIVES

The student should be able to:

1. Properly communicate examination requirements and procedures in a manner that instills confidence and trust in the trauma patient.
2. State the various conditions that mandate specific alterations of the normal radiographic routine--cross-table c-spines, gunshot wounds, pneumothorax, etc.
3. Modify and adapt accepted radiographic procedures and positions to accommodate the needs/limitations of the trauma patient.

4. Modify and adapt accepted radiographic techniques to accommodate the needs/limitations of the trauma patient.
5. Properly utilize and practice Universal Precautions.
6. Demonstrate proficiency in CPR and maintain a working knowledge of the institutions emergency codes and procedures (code blue, red, yellow, etc.)
7. Demonstrate the knowledge and ability required to properly triage multiple trauma patients in the radiology department.
8. Properly utilize immobilization devices and techniques when appropriate.
9. Practice the principles of good radiation protection for the trauma patient and all individuals assisting with the radiographic procedures.

RADIOGRAPHIC FILM EVALUATION

As a part of the clinical rotation experience, the student will be expected to present radiographs to faculty and peers. Items to be detailed by the students are film identification, anatomy, positioning, positioning aids, radiation protection and radiographic quality. Radiographic film evaluation will take place on a regular basis in formal sessions either in the campus lab or at the clinical facilities.

OBJECTIVES: RADIOGRAPHIC FILM EVALUATIONS

Given routine radiographs, the student should be able to:

1. Identify selected normal anatomy from any routine radiographic position that has been previously covered in the classroom or positioning laboratory. (C03,C04,C05,F01,F02)
2. Identify any routine radiographic position (including part-film references, centering points, film size, and CR angulation) that has been previously covered in the classroom or positioning laboratory. (C03,F01,F02)
3. Determine the diagnostic value of any standard radiographic position that has been previously covered in the classroom or positioning laboratory. (Is this film diagnostic?) (C03,C04,F01,F02)

4. Identify and describe how to correct common positioning errors on any routine radiographic position that has been previously covered in the classroom or positioning laboratory. (C03,C04,F01,F02)
5. Identify common radiographic artifacts that may occur in the exposure room, the darkroom, or the radiographic processor. (C04,C05,F01,F02)
6. Analyze selected non-diagnostic radiographs and discuss methods for correcting their deficiencies. This may include positioning errors, or errors in technical factors. (C04,C05,F01,F02)

Course Outline or Schedule:

MCC Radiologic Technology

RADR 1261 Clinical Rotation Spring 2020

Semester Dates: 1-14-2020 thru 5-1-2020**Spring Break: March 9-13, 2020****Campus Closed: 4-10-2020****Day Rotation 8:00am-2:30pm****Evening Rotation 2:30pm-9:00pm****30 Minute Lunch**

Kaylee Tucker	BSW Temple (E-Jan 13-Jan 24)
John Long	BSW Temple (E-Jan 27-Feb 7)
Mikayla Marion	BSW Temple (E-Feb 10-Feb 21)
Alyssa Anglin	BSW Temple (E Feb 24-Mar 6)

Taylor Mathis	Pedi Specialty Clinic
Lindsey Hann	Coryell Memorial
Charlene Rodriguez	Goodall Witcher
Cheyenne Cornelius	Navarro Regional
Madison Krennek	Temple VA

CLINICAL II MEDICAL RADIOLOGIC TECHNOLOGY

RADR 1261 01

Matthew Hepp	Temple VA
Yahaira Moreno	Temple VA
Brittney Alexander	Waco Orthopedic (8:30-3:30) 1 hr lunch
Katlyn Brooks	Waco Orthopedic (8:30-3:30) 1 hr lunch
Bailey McMains	Southwest Sports Medicine
Heather Hopkins	Southwest Sports Medicine
Michelle Boggs	Providence (E-Jan 13-Jan 24)
Greyson Branch	Providence (E-Jan 27-Feb 7)
Amy Horne	Providence (E-Feb 10-Feb 21)
Jessica Schmedthorst	Providence(E Feb 24-Mar 6)
Ana Carter	Providence (Mar 16-Mar 27)
	Mar 30-Apr10) (E Apr 13-24) (E Apr 27-May 1) open to volunteers

Class Days:

There will be two class days during the Spring semester. The student will attend class on the MCC campus in order to participate in film evaluations and mock registry exams and lab challenges. Grades for these activities comprise 40% of the semester grade. Absence from a class day will be counted as a clinical absence.

February

April

Student Holidays: Martin Luther King January 20, 2020

Spring Break March 9-13,2020

Good Friday April 10, 2020

Course Grading Information:

RADR 1261 Spring Semester Grading/Scoring

<u>GRADE SCALE</u>		<u>GRADING AREAS</u>	
90-100 pts	A	Freshman Skills Evals.	50 %
80-89 pts	B	Class Days	40 %
75-79 pts	C	Exam Competencies	<u>10 %</u>
			100 %
Below 75	F		

Throughout the course, grades in BrightSpace will indicate grades without decimals. These grades will remain visible through BrightSpace for the duration of the semester. Any student who has questions regarding their grade should contact the instructor immediately.

Freshman Skills Evaluations:

Student clinical skills will be evaluated by the clinical supervisor and clinical instructors. These scores are averaged together for one clinical evaluation grade. Freshman skills evaluations are worth 50% of the semester grade.

Clinical Attendance: Attendance at clinical rotations is crucial to your learning experience. Please read the Attendance & Tardy Policy.

Clinical Competency Exams

The Radiologic Technology program is competency based. Students are required to demonstrate competency in the laboratory before attempting competency testing in the clinical setting. AS the student progress through the didactic education and laboratory practice, they are assigned a specific number and type of competencies to complete each semester. In order to be declared clinically competent, students must successfully complete a minimum number of competency exams for each designated procedure as indicated in the following paragraph. Students receive a copy of a competency profile in the first semester in order to help them track their own progress. Clinical instructors also evaluate students randomly each semester to ensure that the students retain clinical competency throughout the program.

Competency Requirements:

RADR 1260 Clinical I	Complete 10 competency exams from the chest and abdomen category.
RADR 1261 Clinical II	Complete 20 competency exams from the chest, abdomen, extremities.
RADR 1460 Clinical III	Complete 30 competency exams from all categories.
RADR 2266 Practicum I	Complete 20 competency exams from all categories.
RADR 2267 Practicum II	Complete 30 competency exams from all categories.
RADR 2360 Clinical IV	Complete 10 comps & any exams for clinical competency profile.

By program completion, students will demonstrate competency in all 10 categories of the general patient care procedures, 37 mandatory procedures and at least 15 of the 30 elective exams as designated by the ARRT.

Clinical Competency Grading Guideline:

Competencies prove that a student is performing well in the clinical environment. Failure to complete the required competencies for any semester will result in a point deduction. Competency values will be calculated according to the number required for a semester.

Example:

RADR 1260- 10 competencies for the semester at a value of 10 points each will give the student a 100 for a competency grade provided that the student attains all 10 for the semester.

RADR 1261- 20 competencies for the semester at a value of 5 points each will give the student a 100 provided that all 20 are completed.

Etc. for the following semesters

Failure to Complete the required number: If a student fails to complete the required number of competencies for that semester, lab simulations may be an option to attain the required number, BUT only at half the value of the competency. If, while performing lab simulations, the student does not perform to standards, points will be deducted from the half value of the comp.

Simulation Lab Competencies for ARRT

Competency exams in an actual clinical setting provides the best learning experience, but in certain situations, simulated exams in the lab are necessary. Lab simulations are not intended to be an easy replacement for competencies not performed in the clinical setting. Therefore, only simulations performed during the last 30 days of a student's graduation year will be an acceptable substitute for actual clinical competencies.

EVENING ROTATION

Imaging services are provided to the community twenty-four hours a day, seven days a week. Evening rotations provide the student with the opportunity to gain experience in trauma radiography, as well as continuous care of the inpatient population.

All students are expected to participate in evening rotations in order to gain this experience. Clinical assignments will correlate with the student's didactic background and curriculum. To fulfill this requirement students evening rotations will consist of two consecutive clinical weeks in the trauma/inpatient setting for the semester. Two week rotations in the summer will total approximately 64 clock hours; fall and spring rotations will total approximately 54 clock hours maximum.

Students participating in evening rotations must be appropriately supervised (student to qualified staff ratio of 1:1). The student will be allowed and encouraged to complete clinical competencies on this rotation.

Hours during Spring semester are:

Daytime Rotation: 8:00am -2:30pm

Evening Rotation: 2:30 PM until 9:00 PM

Late Work, Attendance, and Make Up Work Policies:

Performance Goal, Expectation, and Requirements

The Radiologic Technology program coursework is designed to provide students with a structured comprehensive curriculum that prepares them for a career as a professional health care provider. It is imperative that students develop and maintain a strong knowledge base of all course material and competencies to be successful.

Therefore, the program has established a performance goal for all coursework and assessments in all RADR courses of an 80% or higher. Students that do not achieve the minimum grade of 80% will be required to complete an activity of remediation assigned by the instructor of the course immediately following. The activity requirements will vary as they will be customized according to factors such as the students' needs, the purpose of the assignment, its content, etc., and the instructor will maintain all records of completion. Students that fail to complete the required remediation activities will receive an "Incomplete" ("I") grade for the course, regardless of overall passing grade point average, until all work is submitted. An "Incomplete" ("I") in any course must be resolved prior to the start of the following semester or the resulting grade will convert to an "F" and the student will not pass the course.

Attendance for Clinical Courses

<p>"Regular and punctual attendance is expected of all students, and each instructor will maintain a complete record of attendance for the entire length of each course, including online and hybrid courses. Students will be counted absent from class meetings missed, beginning with the first official day of classes. Students, whether present or absent, are responsible for all material presented or assigned for a course and will be held accountable for such materials in the determination of course grades.</p>

In the case of online and hybrid courses, attendance will be determined in terms of participation, as described in the course syllabus.”

Attendance for Clinical Courses

Completion of clinical hour's accounts for a significant portion of the student's learning experience in the Radiologic Technology program; therefore attendance is vitally important to the success of the student. There are occasions when an absence is necessary and we do understand that there is life outside of this program.

HOWEVER, frequent absences cause the student to miss vital learning opportunities and will have an adverse effect on their final grade.

Any student absent for more than 25% of the clinical class hours may be withdrawn from the course and may not continue in the program. The following is a breakdown of how an absence will affect your **FINAL GRADE**.

*******KEY WORD FINAL GRADE*******

- 1 day of absence = 0 (which may be saved and taken at end of semester)
- 2 days of absence= 5 point deduction from **FINAL GRADE**
- 3 days of absence= 10 point deduction from **FINAL GRADE**
- 4 days of absence= 15 point deduction from **FINAL GRADE**
- 5 days of absence= 20 point deduction from **FINAL GRADE**
- 6 days of absence= 25 point deduction from **FINAL GRADE**
- 7 days of absence= Below passing- removal from program

Just as in the workforce realm, it is professional courtesy that your supervisor be notified if you are to be tardy or absent. **The student must contact the clinical coordinator by leaving a voice message at 254-299-8305 or by email if there is a need to be absent.** Failure to call the **Clinical Coordinator** will result in an unexcused absence and **10 points** will be deducted from the final grade for each incident of failure to contact the CC in addition to the point deduction for the absence. The clinical coordinator and the supervisor at the clinical site should be notified of absences at least 1 hour prior to clinical start time.

Absences that have exceptions to the above rules are as follows:

1. The death of an immediate family member. (**parent (including step and in-laws), spouse, child, sibling**) (Three clinical days maximum.)
2. The death of extended family member (**grandparent, aunt/uncle, or cousin**)(One day maximum allowed)
3. Subpoena to be present at a court case. (Jury duty does not qualify-court issued work notice required.)
4. Activities outside of clinic that are directed by the program faculty. (award ceremony, advisory committee meeting, and inclement weather).

Absences will be recorded and available on BrightSpace for the duration of the semester.

Tardy Policy

Students are expected to report to their assigned clinical areas and be ready to work by the assigned time schedule. A tardy constitutes arriving **ANY** time **after** the pre-designated start time for that clinical rotation up to 10 minutes after the scheduled start time. When the student is going to be tardy, **THEY MUST** contact the clinical coordinator by office phone or office email and **should** contact the clinical site to inform them of their intent to be tardy. It is the student's responsibility to have contact information for the clinical supervisor of the facility they are reporting to and the clinical coordinator. Contacting the clinical site is professional courtesy and **DOES NOT** excuse the student for being late. Clinical sites develop relationships with students and the welfare of the student is important.

An absence will be charged for students arriving after the 10 minute window unless the student contacts the clinical coordinator and requests an occurrence. When the student contacts the clinical coordinator and requests an occurrence, the student will have a 2 hour window (from their original report time) to report to their clinical site.

Cumulative Tardy Incidences will be carried over from previous semesters and available in BrightSpace for the duration of the student's program years.

Failure to provide advance notification

Should a student fail to contact the clinical coordinator in advance of the occurrence/absence/tardy, 10 points will be deducted from the student's final grade in addition to any other point deductions for absences or occurrences. This is a

serious infraction and can be devastating to a student's overall grade and can easily jeopardize their placement in the program.

EX: A

A student is assigned to report at 8:00am. They call the clinical coordinator's cell phone any time before that to explain the situation, request an occurrence and send an email or leave voicemail as to the situation. The Student is also **required** to post a note in E*Value when they clock in with as much information as possible to explain the situation and what kind of correspondence they left, voicemail, email, etc. (talked to Deb, Traffic, Flat tire, emailed a message or left voicemail on office phone)

The student should be clocked in and ready to work by 10:00 am and 2 points will be deducted from their final clinical grade. Cell phone conversations with the CC are not considered "official" notification.

EX: B

A student thinks that they will not be late but then notices when they clock into E*Value the clock-in time is 8:01. This is considered a tardy and proper notification is required as well as a note in E*Value as to what correspondence was sent to the CC. (voicemail message, email etc.) Based on the number of previous tardy arrivals, the student may wish to take an occurrence rather than risk too many tardies that would warrant removal from the program.

Ex: C

A student is assigned to report at 8:00am and but arrives at 8:15. The student did call but an absence will still be recorded since they arrived after the 10 minute window. The absence will be charged to the student whether they stay at clinical all day or not, and will be included in their semester absences. Had the student not called to request an occurrence or notify the CC of their late arrival, an additional 10 points will be deducted from their **final grade** due to "Failure to notify".

****A student is allowed to accumulate up to THREE (3) tardies throughout the duration of the program with no reprimand. When the student is tardy for the FOURTH (4) time, they will be removed from the program.**

It is advisable for the student to establish close communication with the CC anytime they need to be tardy/absent/or need an occurrence. Contacting the CC by cell phone to “touch base” about what to do is acceptable **but does not replace the need to send an office email or leave an office voicemail. A voicemail, office email is required notification for any absence, tardy or occurrence.**

The clinical coordinator must be contacted by office phone (254-299-8305) or office email dquinn@mclennan.edu as to whether or not the student is needing a tardy or an occurrence.

Contact Information for Clinical Coordinator

Deb Quinn

299-8305 Office

dquinn@mclennan.edu

When leaving a voice mail, please identify yourself and leave a brief message regarding your situation, and a phone number where you could be reached if necessary.

Occurrence Policy

An “**occurrence**” is an event that requires the student to vary from their normally scheduled clinical time. A two hour window of opportunity is open for a student to take care of **NECESSITIES** outside of their control that interferes with scheduled clinical time.

HOWEVER..... TWO (2) points will be deducted from their FINAL CLINICAL GRADE for every occurrence.

ALSO, just as in absences and tardies, the student is required to notify the Clinical Coordinator and the Clinical Site Supervisor of the need for an “occurrence”. Failure to notify the CC or the clinical site supervisor **PRIOR** to the occurrence will result in an absence and a 20 point deduction from the final clinical grade.

EX: If a student has a need to leave within two hours before their scheduled time to leave, it is considered an “**occurrence**”.

EX: If a student has an outside appointment that requires they arrive within a two hour window of reporting time, it is considered an “**occurrence**”.

EX: If a student has the need to leave clinical in the middle of the day and return within the two hour window, it is considered an **“occurrence”**.

ABSENCE VS OCCURRENCE

EX: If a student fails to notify the CC or the clinical site supervisor of the need for an “occurrence”, it will be considered an **absence along with the appropriate point deductions for failure to notify!**

Notification of “occurrences” will follow the same procedure as absences. Notification of CC and clinical site supervisor is a sign of professional courtesy and is required. A message must be left either through voice mail phone of the CC at 254-299-8305, or email dquinn@mclennan.edu for documentation purposes. Failure to leave a message will be treated as a failure to notify.

Occurrences will be available in BrightSpace for the duration of the semester.

Should you have any questions regarding the content of this policy feel free to contact the clinical coordinator or program director.

Deb Quinn BSHS, RT(R)

Meredith Brown MS, RT(R)

Clinical Coordinator

or

Program Director

254-299-8342

Cell Phone Policy

At this time, due to those emergent notification situations, students are allowed to keep their cell phones with them at clinical sites, BUT, they are not to be out in the clinical or patient areas at any time. They are to be silenced or turned off while at clinical (work) so there is no temptation to sneak a peek! You may use them in lounge areas of the facilities (if the facility allows such) when you are at lunch and/or break. No other time!

Ramifications of cell phone use at a clinical site:

1st infraction-written reprimand and verbal warning

2nd infraction – 1 day suspension

3rd infraction – 2 day suspension from clinical

These suspensions will count as absences, so this will affect your clinical grade with the appropriate absence policy deductions.

4th infraction- REMOVAL FROM THE PROGRAM!

This policy will be strictly enforced and the clinical site supervisors are aware of this policy. Please don't let something such as a cell phone jeopardize your position in the program.

Emergency/Personal Calls

If there is an emergency, your family may contact the clinical site. Please make certain the families are informed of your clinical rotation and the appropriate phone numbers.

Regardless of what the technologists do with their cell phones **STUDENTS ARE NOT** allowed to have their phone out or use it in the clinical setting except as previously described.

Electronic Clinical Log

Students will use the E*Value system to log competencies, observed/assisted exams, specialty modality exam observations as well as attendance by the clock in/out function of E*Value. Computers are available at each clinical site (except the Temple VA) to access for daily clock in/out needs. Students will clock in upon arrival and clock out for lunch periods. They will then clock back in from lunch and clock out before leaving at the end of their particular work day. Students are advised to not clock out prior to the end of their shift unless told to do so by the clinical supervisor. If allowed to "leave early" a student should make a note in the "notes" area as to who gave them permission to leave or what the circumstances were that caused them to clock out early.) Any clock-in time after their scheduled arrival/lunch return time will be counted as a tardy unless certain conditions are met. A student must contacts the clinical coordinator to inform her of their probability of being late arriving at the clinical site has up to 10 minutes to arrive

and only be charged with a tardy. After 10 minutes up to 2 hours a student can use an occurrence provided they notify the CC of the need to take an occurrence. Failure to notify of an occurrence warrants an absence and a point deduction for “failure to notify”. A note must be logged in E*Value of the incident details (occurrence, tardy, traffic, talked to Deb, etc in E*Value)

Clocking in late from lunch does not fall in the category of being able to utilize the occurrence capabilities, but can still be considered a tardy so time constraints are important to keep up with.

All clock in/out transactions will be done on a computer at their clinical site with the exception of the Veteran’s Hospital in Temple. Any attempts to falsify the time, having someone else clock you in or out, record an inaccurate time entry, or use of other devices to clock in other than the clinical sites will result in removal from the program.

Accidents do happen from time to time and clocking in and out incidents will occur as well as logging of exams. The first week of clinical upon returning from break will be a “grade period” so they student has a chance to get “back in the groove” of clocking in and out etc..

As in a real work environment, persistent clock in /out mistakes can come at a price. After the initial grace period, for every clock in/out incident that occurs an email must be sent to the clinical coordinator explaining what happened. The student should also have a supervising technologist send the CC an email as well attesting to the reasoning or verifying their punctuality. The student should also make comments in the “notes” area of E*Value as to what happened, how they contacted the CC etc.... Providing as much info as possible in the “notes” area is beneficial for the student as well as the CC. In some cases, if a student realizes that they clocked in/out under something other than “Scheduled Clinical Hours” just simply clock out or in and you get a “do-over”! just clock in or out again correctly and make a note in the “notes area of E*Value. No point deductions will occur for the student “fixing” these mistakes unless it is grossly over-utilized.

Persistent clock in/out errors, will result in 2 points being deducted from the student’s final grade. This can add up quickly so it is important to use great caution clocking in/out. The points will be deducted in all cases

other than that of site computer/E*Value site issues. Those situations will be handled on a case by case basis.

E*Value Time Tracking

Students using the Time Tracking program of E*Value will use the name of the clinical coordinator (Deb Quinn) as the Time Tracking supervisor. This will allow more consistent and accurate record keeping. Students must use the designated computer provided for E*Value clock in and clock out. No use of any other type of electronic device is permitted. IP addresses are checked frequently to insure that students are using the appropriate computer. If it is determined that a student is using their cell phone or come other electronic device to clock in and out, this is considered falsification of records and a 2 day suspension for the first offense will be given. A subsequent infraction will result in removal from the program.

E*Value Time Edit

Just as in a “real” work situation, students will be expected to clock in/out on a computer using the E*Value site. In the event that a student fails to clock in/out accurately upon arrival, at lunch or leaving at the end of the day, and an adjustment is needed, the student will need to contact the clinical coordinator by office phone or email for a **time edit**. The student should report the incident details and the times needing to be changed the day of the incident.

- There will be a “Grace Period” of one week at the beginning of each semester that allows students to acclimate the use of E*Value and the new clinical site. Recurrent “mistakes” regarding clocking in, logging information, etc with E*Value is a problem. Anytime a student has issues with E*Value, attaining access to clock in, etc. they should contact the CC and explain the situation. Students should always have their supervising technologist or instructor send an email to the CC validating the clock in issue.
 - Ex: student arrived early to clinical but computer was locked and student had no way to access the E*Value site to clock in!
 - Ex: student arrived on time but “forgot” to clock in!
- Frequent incidents that are accessed to be oversights by the student could result in a 2 point deduction from the final semester grade. Time tracking will be checked frequently so being forthcoming and honest is the best way to handle such incidences. Any attempts to avoid this deduction by not reporting it, could mean a student will incur a tardy or an absence and the penalties that go along with them.

Failing to log exams

E*Value is a way for clinical coordinators and faculty instructors to evaluate the educational effectiveness of a clinical site regarding the variety and number of exams. Exams logged by students will be checked periodically and if a student demonstrates a failure to log exams accurately and routinely, **5 points will be deducted from the students final grade** for each incident/period of time, that they fail to keep an accurate E*Value log of assisted/observed exams. Evaluating the log accuracy is at the discretion of the Clinical Coordinator. The various patient load of each clinical site will be taken into consideration before deducting points. Please be diligent in logging observed/assisted exams.

CLINICAL HOURS AND ATTENDANCE

Regular and punctual attendance is expected of all students, and a complete record of attendance will be monitored by the clinical coordinator for the entire length of the course. Students will be counted absent when clinical days are missed, beginning with the first official day of classes.

Absence from 25 percent of scheduled clinical meetings will be taken as evidence that a student does not intend to complete the course, and the student will be dropped unless the instructor is satisfied that the student will resume regular attendance and will complete the course.

Dosimeter Changes

For accurate reporting and record keeping, it is extremely important that TLD badges be changed in a timely fashion. A student will be given ample notice through BrightSpace notification/email, as to when to bring their badge to class to exchange it for the next month's badge. If a student fails to bring their badge on the day requested they will **NOT** be allowed to return to clinical and will incur absences with related point deductions until the badge has been changed. **No exceptions!**

Student Behavioral Expectations or Conduct Policy:

Students are expected to maintain a professional demeanor that includes respect for other students, technologist, hospital staff, and the instructor, prompt and regular attendance, and an attitude that seeks to take full advantage of the education opportunity. Students in this program are adults and are expected to act appropriately. Behavior that is disrespectful or disruptive will not be tolerated; any student who is asked to leave a clinical facility will be removed from the program. A written deficiency notice in the areas of knowledge, skills, attitude, reliability, dependability, tardiness, or attendance will lead to academic probation. Failure of the student to abide by the terms of this academic probation will lead to failure of the course and may lead to withdrawal from the radiologic technology program. Students who receive less than a C grade in clinical practice will not progress into the next course until this course is completed with the minimum required score of C. Students who receive less than a C grade in clinical practice will not progress into the next course until this course is completed with the minimum required score of C. Regular and punctual attendance is expected of all students, and a complete record of attendance will be maintained for the entire length of each course. Students will be counted absent from clinical missed, beginning with the first day of clinical. Students, whether present or absent, are responsible for all material presented or assigned for a course and will be held accountable for such materials in the determination of course grades. If inappropriate behavior continues, a report will be filed with the Grievance Committee in Student Development. Refer to the General Conduct Policy in the Highlander Guide

E-mail correspondence

Faculty of this program communicate with students using McLennan Community College email. Use of other email addresses could cause a breakdown in communication and important information missed. Email messages are to be formulated in a professional fashion with no use of text speaking or symbols. Email correspondence should open with an appropriate salutation/greeting to the person intended and close with an appropriate closing/sign off.

Performance Goal, Expectation, and Requirements

The Radiologic Technology program coursework is designed to provide students with a structured comprehensive curriculum that prepares them for a career as a professional health care provider. It is imperative that students develop and maintain a strong knowledge base of all course material and competencies to be successful.

Therefore, the program has established a performance goal for all coursework and assessments in all RADR courses of an 80% or higher. Students that do not achieve the minimum grade of 80% will be required to complete an activity of remediation assigned by the instructor of the course immediately following. The activity requirements will vary as they will be customized according to factors such as the students' needs, the purpose of the assignment, its content, etc., and the instructor will maintain all records of completion. Students that fail to complete the required remediation activities will receive an "Incomplete" ("I") grade for the course, regardless of overall passing grade point average, until all work is submitted. An "Incomplete" ("I") in any course must be resolved prior to the start of the following semester or the resulting grade will convert to an "F" and the student will not pass the course.

Cell Phone Use & Social Media

Cell phones should remain on silent or secured in another location (according to site policy) while participating in clinical. Students will not answer cell phone calls while observing or participating in patient care and radiographic exams. Students may check their cell phones **only** during assigned breaks or during the meal period. Students violating the cell phone policy will receive written reprimand with a 1 day suspension from clinical for subsequent infractions. Suspension days will be a part of the students overall absences from clinical. This policy includes the use of texting and pictures. Regardless of what the technologists do with their cell phones **STUDENTS ARE NOT** allowed to have their phone out or use it in the clinical setting except as previously described.

Social Media

HIPAA is Federal law passed by Congress in 1996 imposed to protect patient health information. Students who post clinical or patient information on social media sites run the risk of violating HIPAA. At no time should a student post any patient,

clinical or medical information on any social media site. Some clinical sites have software to detect social media postings and students who are found to be in violation of posting anything regarding clinical.

Student Behavioral Expectations or Conduct Policy:

Students are expected to maintain a professional demeanor that includes respect for other students, technologist, hospital staff, and the instructor, prompt and regular attendance, and an attitude that seeks to take full advantage of the education opportunity. Students in this program are adults and are expected to act appropriately. If inappropriate behavior continues, a report will be filed with the Grievance Committee in Student Development. Refer to the General Conduct Policy in the Highlander Guide

Other Electronic Devices

Students will not use the internet or use other electronic devices during clinical hours. Students violating this policy will receive written reprimand with possible suspension from clinical for subsequent infractions.

Electronic Communication Policy

This policy applies to all students enrolled at McLennan Community College (MCC) and to all MCC employees. All students, staff, and faculty will use their official college e-mail addresses when conducting college business. It is MCC's policy to assign all students, upon registration, an official e-mail address, which may remain in effect up to twelve months after students are no longer enrolled at MCC. MCC student e-mail addresses will be the only e-mail authorized to communicate official college information or business. Students are expected to read and, if needed, respond in a timely manner to college e-mails. It is suggested that students check college e-mail daily to avoid missing time-sensitive or important college messages. Students may forward college e-mails to alternate e-mail addresses; however, MCC will not be held responsible for e-mails forwarded to alternate addresses. A student's failure to receive or read official communications sent to the student's assigned e-mail address in a timely manner does not absolve the student from knowing and complying with the content of the official communication.

Smoking Cessation – Electronic Vapor Products

Use of electronic smoking cessation devices or tobacco products is prohibited on the MCC campus.

MCC Course Evaluations:

Students will be asked to complete a course evaluation near the end of the semester. The overall goal of the evaluation is to improve performance by providing faculty with insight to better understand their students and how they learn. Your feedback is anonymously provided to me after the week of final exams is complete. Please provide honest and constructive responses to help me evaluate how I teach from your (the student's) perspective. I appreciate your participation in advance.

Accommodations/ADA Statement

Any student who is a qualified individual with a disability may request reasonable accommodations to assist with providing equal access to educational opportunities. Students should contact the Accommodations Coordinator as soon as possible to provide documentation and make necessary arrangements. Once that process is completed, appropriate verification will be provided to the student and instructor. Please note that instructors are not required to provide classroom accommodations to students until appropriate verification has been provided by the Accommodations Coordinator. Instructors should not provide accommodations unless approved by the Accommodations Coordinator. For additional information, please visit mclennan.edu/disability.

Students with questions or who require assistance with disabilities involving physical, classroom, or testing accommodations should contact:

disabilities@mclennan.edu

We care about your safety, and value an environment where students and instructors can successfully teach and learn together. If you or someone you know experiences unwelcomed behavior, we are here to help. Individuals who would like to report an incident of sexual misconduct are encouraged to immediately contact the Title IX Coordinator at titleix@mclennan.edu or by calling Dr. Drew Canham (Vice President for Student Success) at 299-8645. Individuals also may contact the MCC Police Department at 299-8911 or the MCC Student Counseling Center at MCC by calling 299-8210. The MCC Student Counseling Center is a confidential resource for students.

McLennan's Title IX webpage (<http://www.mclennan.edu/titleix/>) contains more information about definitions, reporting, confidentiality, resources, and what to do if you or someone you know is a victim of sexual misconduct, gender-based violence or the crimes of rape,

acquaintance rape, sexual assault, sexual harassment, stalking, dating violence or domestic violence.
