NOTE: This is an Online 16-week course.

COVID 19 Notice:

McLennan Community College is committed to providing you with every resource you need to reach your academic goals. We are also concerned for your safety. We are working through COVID-19 guidelines to make sure we offer a safe environment for you and our faculty. This will include smaller class sizes to manage social distancing and proper cleaning techniques. You will have the advantage of a physical classroom experience but may also need to work part of the time online as we adjust to limited classroom capacity. This will also allow us the flexibility to move online if so directed by federal, state and/or local COVID 19 guidelines. Faculty and staff are preparing now to ensure that you have the best experience in the midst of these uncertain times.

Course Description:

Study and application of communication within the business and professional context. Special emphasis will be given to communication competencies in presentations, dyads, teams and technologically mediated formats.

Prerequisites and/or Corequisites:

There are no official course prerequisites. The student should, however, be able to speak, listen, and write in English, employing at least a high school level vocabulary and correct grammar. Writing, reading, and speaking skills are necessary for completing assignments. To improve inadequate skills for the level of this course, the student may take advantage of the college's reading and developmental English courses.

Course Notes and Instructor Recommendations

- The Instructor Plan, assignment sheets, and other documents are available on Brightspace. Check back frequently to ensure you are up to date on course content.
- Online learning requires a great deal of personal discipline and planning. Please make sure you are doing what you need to stay on top of assignments and projects.
- I am here to help! If you need clarification or would like me to look at a project or outline, please do not hesitate to ask. It is up to you to take initiative and ask for help.

Assignments

Project 1: SWOT Analysis Presentation

For this project, you will work individually to research an established business/organization of your choice and develop a presentation that presents an organized, engaging, and well-researched SWOT analysis of that business/organization (ideally this should be a company that you are personally interested in working for). For this project you will also be submitting a full-sentence outline of your presentation.

Project 2: Simulated Interview

For this project, you will be paired into interview duos. Each student will participate as both the Interviewer and Interviewee. Prior to conducting the interviews, the duo will need to either locate position descriptions for a job/internship or write original descriptions of a position for which the interviewees would be qualified. The duo will then develop a schedule of questions for the interviews, rehearse, and then record the performance of the interviews. For this assignment you will also prepare a resume, cover letter, and other interview related documents.

Project 3: Group Facilitation of a Meeting

For this project, you will work with a group to identify a problem that can be presented to the class during a problem-solving meeting. The group is responsible for developing a meeting agenda and then developing a presentation that walks through the agenda (explaining the problem, discussing solutions criteria, and asking for a response). Each group will attempt to identify a solution that is mutually acceptable to all class members.

Project 4: Problem Solving Podcast

The final project for this course will give you the opportunity to demonstrate your ability to articulate ethical and effective business communication practices by developing a podcast episode that addresses a potentially problematic communicative scenario and then uses various forms of support to provide a solution to this scenario. For this project you will also prepare a reflection paper.

Attendance Assignments

To ensure that you are keeping up with course content and to help solidify your understanding of various topics that are used throughout this course, there will be online attendance assignments that you will need to complete each week. These will typically take the form of a discussion board post, but they might also include other work depending on the topic. These assignments will be ungraded, however, since they are linked with attendance, repeated failure to complete these assignments can result in being dropped from the course or a penalty to your grade..

*Note: More details about each of these assignments will be available on Brightspace.

Course Grading Information:

Each assignment in this course will receive a score out of the following possible points.

- Project 1 100
- Project 2 100
- Project 3 100
- Project 4 100

Your grade for the course will be based on your cumulative score out of a possible 400 points.

- A 360 and above
- B 320 – 359
- C 280 – 319
- D 240 – 279
- F below 240

Grading Notes:

- Completion of each of the 4 major projects is **necessary** to receive a passing grade in the course.
- Assignment guidelines and grading rubrics for all projects will be available ahead of time so you can make sure you are meeting project requirements.
- Grades for written project documents will be factored into your total project grade.
- I do not round up grades and **extra credit** is never offered on an individual basis. If extra credit is offered, it will be offered to the entire class. If you need to achieve a specific grade in this class, I highly suggest you meet with me early in the term to discuss what you will need to do rather than asking for more points later in the term.

Course Policies

Attendance, Late Work, and Make Up Work Policies

Attendance is **mandatory**. Since this is an online course, your attendance will be taken based on your completion of the required online attendance activities and projects.

- If your reason for being absent is recognized by the College as **excused**, please let me know ahead of time and email satisfactory documentation to me within 2 days of the absence. It is your responsibility to make up any course material missed.
- Following MCC policy, being **absent** from more than 25% of scheduled class meetings (4 “days” of class) will result in being dropped from the course. If you have already reached the maximum allowable drops and cannot be dropped from the course, each absence beyond the 4 allowable “absences” will result in a 10-point deduction from your final grade.
- I do not accept **late work**. Although I will send out reminders regarding assignments, it is your responsibility to make sure that assignments are completed on time. Submit assignments early to ensure that if you experience technical issues they can be addressed before assignment deadlines. **If you will not be able to finish an assignment by the assigned deadline**, contact me before the deadline so I know your situation.

Click on the link above for the college policies on attendance and absences. Your instructor may have additional guidelines specific to this course.

Decorum

As an adult and college student, you are expected to present/conduct yourself accordingly/appropriately. You are expected to demonstrate consistent maturity, respect, and positivity in your communication with myself and other students. As this is a shared communicative context, it is imperative that all exchanges be appropriate, civil, and constructive, and that the educational environment be tolerant and supportive.

Academic Honesty

Academic honesty is always expected. As such, plagiarism and cheating of any kind will not be tolerated. If you are caught in the act of cheating or turn in an assignment that is plagiarized in **ANY** way, you will receive an “F” for the course and be prosecuted according to the full extent of MCC guidelines.

Grading Philosophy

Grades are earned by you and assessed by me based both on 1) the caliber of scholarship that is demonstrated/submitted and 2) the extent to which it meets/exceeds established criteria. Therefore, while desire, motivation and effort are all highly prized attributes often necessary for academic advancement, it is only the measurable manifestation of these qualities that I can and will evaluate. In doing so, I do not intend to deceive you or devalue your work by inflating your grade; I plan to provide precise, expert, and honorable evaluations.

Assignment Feedback and Grade Questions

If you would like feedback on an assignment prior to turning it in, I would be happy to look at your work. Please allow adequate time for material to be reviewed so that substantive comments can be provided. Grades will be posted on Brightspace within 4 days of each submission deadline. Legitimate, substantive, and timely grade questions may be discussed privately and after at least one full day has passed since the respective graded material and feedback is returned to you. Be prepared to share with me your thoughtful, specific grade question(s) in a calm and respectful manner. An inquisitive versus accusative attitude/approach will be of much greater benefit to you.
