Course Notes and Instructor Recommendations:

This course is focused primarily on student performance in completing assignments. Do not fall behind as it will be difficult to recover.

Required Text & Materials:

- Textbook: Exploring Elements of Design
- Author: Evans
  ISBN: 9781111645489
- MCC Bookstore Website: http://www.mclennan.edu/bookstore
- Computer: PC based laptop or desktop computer that meets MCC minimum specifications
- Portable Hard Drive or Thumb Drive with a minimum 32 GB capacity

Methods of Teaching and Learning:

Students are expected to have read all assigned readings before coming to class or lab. Student progress will be assessed through exercises, homework, online discussions, projects, group work, or exams.

All submitted assignments must be typed (if applicable) as handwritten work will not be accepted.

The exams may include multiple choice, fill-in the blank, short answer, discussion, and problem-solving questions that focus on concept and application. You are responsible for all material in the required textbook chapters and any additional readings as well as any information from class lectures, labs, and assignments. All material covered in class or assigned as homework is fair game for inclusion in an exam.

For work done in teams, each team member may be asked to complete an evaluation of their teammates' contribution to the team assignments. If a team member is not contributing sufficiently, their grade for the team assignment may be reduced accordingly.

Late Work, Attendance, and Make Up Work Policies:

All assignments are due on the day they are due. Assignments received after the due date may be assessed a penalty of ten percent (10%) per week in which they are late and may not be submitted one (1) week after the due date unless approved by the instructor. Students are responsible for all assignments even if they are absent on the due date.

Online discussions are designed to mimic class discussion on a topic and failure to complete a discussion by the due date will result in an automatic zero for the discussion as that is equivalent to missing a class discussion.

Make-up exams, quizzes and other assignments are only allowed in the event of a college excused absence or as otherwise scheduled with the instructor. It is the student's responsibility to inform the instructor beforehand, or in the event of an emergency, immediately afterward, so that other arrangements can be made. The student must initiate scheduling any make-up exams, quizzes, or any other assignments with the instructor. Exams, quizzes, or other assignment will be assigned an automatic zero (0) unless they are scheduled with the instructor for completion later.

Students who fail to submit any graded assessments for two (2) consecutive weeks in a 16-week course, or for one (1) week in an 8-week course, will be dropped from the course.

Attendance for online students is determined by the student performing an academic activity, such as submitting an assignment or taking a quiz. Only logging into the course management system is not sufficient to count as attendance for an online class.

Student Behavioral Expectations or Conduct Policy:

Students are expected to maintain classroom decorum that includes respect for other students and the instructor, prompt and regular attendance, and an attitude that seeks to take full advantage of the education opportunity.

You are encouraged and expected to ask questions and to interact with the instructor regarding relevant issues. However, personal conversations and "chatter" not related to the course will not be tolerated as this practice is very distracting and rude to your fellow students as well as to the instructor.

When meeting via Zoom, participation is greatly encouraged, and clothing is required. Please keep your video on to create more of a presence in the meetings. However, be mindful that you can be seen. If needed, please feel free to stop your video and rejoin with video when you are able. We also ask that you observe Zoom etiquette when in class by turning your mute on when you are not active in the conversation to reduce background noise.

Students are expected to have read assignments completely before class or lab.

Turn off cell phones, pagers, or other mobile communication devices when class or lab starts.

Student Responsibility:

All students will be treated as adults, which means you are ultimately responsible for your education. Please take note of the following:

- The course instructor(s) may not remind you when assignments are due.
- The course instructor(s) may not request you attend class or lab.
- The course instructor(s) may not tell you what is on an exam. Any material in the book or covered in class or lab is fair game for inclusion in an exam.
- The course instructor(s) expect you to plan accordingly.

However, the course instructor(s) will also be the biggest advocate for you in your educational journey.

MCC Attendance/Absences Policy:

https://www.mclennan.edu/highlander-guide/policies.html

Click on the link above for the college policies on attendance and absences.

Students are expected to be punctual and attend all scheduled class or lab sessions.

Students are responsible for all class or lab work, assignment due dates, and other information given during any regularly scheduled class or lab periods. Students are also responsible for obtaining assignments, instructions, class notes and any other material that was missed due to tardiness or absence, from other students.

Students who are absent from class or lab for a college excused event may make-up exams, quizzes, and other assignments within one week of the excused absence or as scheduled with the instructor.

Students are expected to arrive to class and/or lab on time and to remain in the classroom for the duration of the class or lab. Leaving and re-entering the room after class or lab has started is distracting both to the students and to the instructor.

Students who have missed 25% of the cumulative scheduled classes for the semester or have been absent for two (2) consecutive weeks, will be dropped from the course. Attendance is determined for online classes by completing an “academic event”, which is defined as submitting an assignment, completing a quiz, or logging into the course management system to read course related material.
