Course Description:

EDUC 1100 – Learning Framwork:

A study of the a) research and theory in the psychology of learning, cognition, and motivation; b) factors that impact learning; and c), application of learning strategies. Theoretical models of strategic learning, cognition, and motivation serve as the conceptual basis for the introduction of college-level student academic strategies. Students use assessment instruments (e.g., learning inventories) to help them identify their own strengths and weaknesses as strategic learners.

Students are ultimately expected to integrate and apply the learning skills discussed across their own academic programs and become effective and efficient learners. Students developing these skills should be able to continually draw from the theoretical models they have learned.

Course Grading Information:

Your grades are weighted per the assignment category. A **weighted** score is the average of a set of **grades**, where each set carries a different amount of importance. For example, as you can see by the chart below, the core activities make up 30% of your grade versus the discussion boards which are worth 10%. This means that you could do all your discussion boards, but that 100% would not be worth even some of your core activities being completed.

Assignment Category	%
Weekly Activities	20
Chapter Readings	25
Discussion Board	5
Core Activities	30
Final Exam	20
Total	100

Grading Scale:

Letter Grade	A	B	C	D	F
Total Points	100 – 90	89 – 80	79 – 70	69 – 60	59 or Below

Late Work, Attendance, and Make Up Work Policies:

Late work will be docked 5% per day it is late. For example, if it is 2 days late and you would have got a 100, you will now get a 90. Please keep in mind that there are some instances where late work will not be accepted. For example, discussion boards are an online, interactive assignment and completing these late is not allowed. Under certain, documented circumstances (example: documented serious illness/injury of self or immediate relative), late work will be excused. **Communication is very important** – if you are experiencing extenuating circumstances, please reach out to me so we can develop a plan for you to be successful despite your circumstances.

As this is a blended course, attendance is expected. There will be in-class assignments that go towards weekly activities. Too many absences can result in a lower grade.

Click on the link above for the college policies on attendance and absences. Your instructor may have additional guidelines specific to this course.

Student Behavioral Expectations or Conduct Policy:

In both the face-to-face and online environments, students are expected to maintain classroom decorum that includes respect for other students and the instructor, prompt and regular attendance, and an attitude that seeks to take full advantage of the education opportunity.

While honest discussion and debate of topics is expected and encouraged, such interactions should not involve aggressive, derogatory, or involve hostile behaviors (verbal or otherwise). The instructor reserves the right to act to protect the decorum of the learning environment and the image of MCC.

If you are using Zoom to meet with the professor and/or other students, please ensure that you are dressed appropriately and are in a location where you can focus on your responsibilities as a student. Example: It is not appropriate to attend a Zoom class while laying in bed and/or half dressed. Please be respectful of others and mute yourself if background noise will be a problem.

Ethics:

Cheating will not be tolerated. Any student found cheating will be subject to grade reduction, receiving a zero on assignments that involve cheating/plagiarism, and/or dismissal from the course.

Examples of cheating include but are not limited to:

- Copying the work of another student
- Seeking excused absences/tardiness under false pretenses
- Plagiarism (claiming as your own work the work of another)

This course will teach you to think critically. Critical thinking is essential for an educator. Please maintain your integrity and do your own work – there is no reason to cheat in this, or any other course.
