After any unsuccessful first attempt, the student will be given a prescription for remediation in the campus lab. The student must remediate before another attempt.

If the clinical experiences are not available, the student will demonstrate the objective in the campus lab. The student must have attended 85% of the clinical days to be eligible for this opportunity. It is the student's responsibility to make an appointment to demonstrate the objective to the instructor.

BASIC NURSING SKILLS

VNSG 1423.01

Any student who has not completed the critical clinical objective by the end of the first semester may fail clinically.

Prep Sheets will be started before caring for each patient and completed after caring for the patient.

Due dates for Prep sheets will be determined by Clinical Instructor.

Course Outline or Schedule:

The course schedule is included in the Unit Guide and will be discussed the first day of class. All students in the first semester of the Vocational Nursing Program will be administered the two HESI Fundamental Specialty Exams. The first HESI Fundamental Specialty Exam, does NOT count toward the student's first semester Basic Nursing Skills grade average. The score simply indicates the student's level of retained basic nursing skills knowledge at the time of the exam. The second HESI Basic Nursing Skills Specialty Exam will be administered as the final examination during VNSG 1423.

Even though HESI Fundamental Specialty Exam 1 does not count toward the first semester grade average, it is highly recommended and encouraged that after taking this exam, the student spend a minimum of four (4) hours per week in nursing fundamental's remediation offered by HESI. The Remediation Process will be explained by your nursing instructors. All Remediation Time spent by the student will be recorded and reviewed by nursing instructors and the VNSG Program Director.
