LEARNING FRAMEWORK

EDUC_1300_90

Course Description:

A study of the a) research and theory in the psychology of learning, cognition, and motivation; b) factors that impact learning; and c), application of learning strategies. Theoretical models of strategic learning, cognition, and motivation serve as the conceptual basis for the introduction of college-level student academic strategies. Students use assessment instruments (e.g., learning inventories) to help them identify their own strengths and weaknesses as strategic learners. Students are ultimately expected to integrate and apply the learning skills discussed across their own academic programs and become effective and efficient learners. Students developing these skills should be able to continually draw from the theoretical models they have learned. Semester Hours 3 (3 lec/lab).

Prerequisites and/or Corequisites:

Course Grading Information:

Assignment Category	Percentage of Total Grade

Grading Scale:

Letter Grade	A	B	C	D	F

Please note that the grade you receive is the grade you earned. All work in this course should be **your own**. Cheating and academic dishonesty are taken seriously. The first offense will result in a failing grade on the assignment and a discipline referral. The second offense will result in a failing grade for the course and another discipline referral.

Late Work and Make Up Work Policies:

I know that life happens, and for that reason, I **do** accept late work. Please note that you *may* lose points on an assignment if it is turned in late (unless you have communicated with me and let me know ahead of time that you need an extension and I have approved that extension or if you have some sort of emergency/other important life happening and communicate that information to me).

Communication is very important! If you are experiencing extenuating circumstances, please reach out to me so we can develop a plan for you to be successful. I'm here to help you and I want you to succeed! Always feel free to reach out to me via text

Attendance

Weekly activities (discussion, quiz, or lab journal) found within each module will be used to take attendance for online classes. Failure to complete and submit the week's activities by the due date (plus grace period) will result in you being marked absent for that week. Once you have accumulated 4 absences, you may be dropped for the course for attendance purposes. If you are withdrawn or dropped from the course before the official drop date, you will receive a grade of "W." If you are dropped or withdrawn from the course after the official drop date, you will receive an F in the course. Consult the MCC Attendance Policy (shown below) for more information.

(<https://www.mclennan.edu/highlander-guide/policies.html>)

Click on the link above for the college policies on attendance and absences. Your instructor may have additional guidelines specific to this course.

Student Behavioral Expectations or Conduct Policy:

It is very important that you complete your assignments on time and thoroughly. All responses and reflections should be respectful and should appropriately address the topic of the prompt/activity. Please pay attention to normal conventions of writing (use capitalization, punctuation, and correct spelling) so your thoughts are clear to me (the professor) and other students.

In both the face-to-face and online environments, all students are expected to maintain classroom decorum that includes: (a) respect for other students and the instructor, (b) prompt and regular attendance, and (c) an attitude that seeks to take full advantage of the educational opportunity.

While honest discussion and debate of topics is expected and encouraged, such interactions should not involve aggressive or derogatory comments or hostile behaviors

(verbal or otherwise). This class is a safe space to share ideas and opinions. Please be respectful of those who may have an opinion that is different from your own. I (as the instructor) reserve the right to act to protect the decorum of the learning environment and the image of MCC.

If you are using Zoom to meet with me, other students, or other professors, please ensure that you are dressed appropriately and are in a location where you can focus on your responsibilities as a student. Example: It is not appropriate to attend a Zoom meeting while lying in bed and/or half dressed. Please be respectful of others and mute yourself if background noise will be a problem.

Ethics:

Cheating will not be tolerated. Any student found cheating will be subject to grade reduction, receiving a zero on assignments that involve cheating/plagiarism, and/or dismissal from the course.

Examples of cheating include but are not limited to:

- Copying the work of another student.
- Seeking excused absences/tardiness under false pretenses.
- Plagiarism (claiming the work of another as your own)

This course will teach you to think critically. Critical thinking is one of the top work skills in the *Future of Job* reports. Please maintain your integrity and do your own work. There is no reason to cheat in this class (or in any other class). Remember, I'm here to help you and we have many resources available to help if you are struggling with the course content.
