Medical Terminology

HPRS 1206.88

Dr. Bridgit R. Moore

EdD, MLS(ASCP)

NOTE: This is a 16-week online course.

COVID 19 Notice:

McLennan Community College is committed to providing you with every resource you need to reach your academic goals including your safety. We will continue to monitor the evolving situation with COVID 19 and adjust our safety guidelines to make sure we offer a safe environment for you and our faculty. Please make sure to consult your faculty and the MCC website at <https://www.mclennan.edu/crisis-management/coronavirus-updates/index.html> on any changes to these guidelines.

Course Description:

An overview of roles of various members of the health care system, educational requirements, and issues affecting the delivery of health care.

Medical Terminology is a foundation course that teaches students the meaning and correct pronunciation of medical terms, so that they can correctly understand and communicate medical information. This course takes a systematic, word-building approach to medical terminology: students do not simply memorize a list of terms in this course—they learn how those terms are built using common word parts, so that they can correctly infer the meaning and correct spelling of medical terms, even those they have never studied. They will also learn the “sounds-like” pronunciation system that will enable them to pronounce virtually any medical term. The terms in this course are further organized by body system, so that students can observe the word parts that are common to each system. The inference skills students gain in this course will enable them to keep pace with the ever-expanding lexicon of medical terminology. Semester Hours 2 (2 lec)

Email Policy:

McLennan Community College would like to remind you of the policy (<http://www.mclennan.edu/employees/policy-manual/docs/E-XXXI-B.pdf>) regarding college email. All students, faculty, and staff are encouraged to use their McLennan email addresses when conducting college business.

A student's McLennan email address is the preferred email address that college employees should use for official college information or business. Students are expected to read and, if needed, respond in a timely manner to college emails.

Instructional Uses of Email:

Students are expected and encouraged to check their college email on a regular basis.

Email on Mobile Devices:

The College recommends that you set up your mobile device to receive McLennan emails.

Forwarding Emails:

Emails may be forwarded to alternate email addresses; however, the College will not be held responsible for emails forwarded to an alternate address that may become lost or placed in junk or spam filters.

Methods of Teaching and Learning:

Assignments and activities are online through the MindTap learning platform from Cengage Publishing. There is not a separate written final exam. All assignments and activities are due by the date specified by the instructor on the Course Schedule. There may be one word or a phrase as the answer to a question on any of your assignments and/or activities. **Respond with the most correct answer that makes grammatical sense. Pay attention to grammar. Pay attention to spelling and the use of dashes and slashes for the word parts.** You may work and save but only **one submission** for a grade on a MindTap assignment, activity, and/or exam is permitted. Send me an email at bmoore@mclellan.edu if you have a question or if you need any help.

If anyone in this class has a diagnosed disability or requires accommodations, I would appreciate hearing from you so we may work together for a successful completion of the course. Please schedule an appointment with me and be sure to follow the instructions in your syllabus to complete Disability Services requirements.

Course Objectives and/or Competencies:

At the completion of the course, students should be able to:

1. Analyze how medical terms are built using common word parts.
2. Properly spell, define, and pronounce medical terms associated with each of the major body systems.
3. Identify and define the word parts most frequently associated with the major body systems.
