## Course Outline or Schedule:

In order to be successful in this course, I strongly urge you to do the following each week:

1. Go to Brightspace, click on the Component you are working on.
2. Follow the steps in the Component Checklist in the order they appear. Do not try to skip around or work out of order. The course is designed to help you move through the material as efficiently as possible.

Pay attention to the calendar below. Begin each component by opening the Checklist.

**Be sure to check off items as you complete them.** Work through the course in the order items are presented in the Checklists.

Remember **Due Dates are NOT Start Dates**. Each component represents what would normally be assigned for one Week during a long semester.

It is always easier to keep up than to catch up. Consequently, you may want to work ahead to build in a buffer for when “life happens”, as it usually does, at the most inopportune time.

## PRE-CALCULUS

2412.87

---

The lowest discussion, homework, quiz and exam grade will be dropped. The comprehensive final exam will NOT be dropped.

All work for ALL EXAMS must be handwritten, numbered (in the order of the problems in the exam) and NEAT. It MUST be uploaded in the Assignment area in Brightspace within 15 minutes of submitting your exam in Mobius. Failure to do so will cause you to lose 100% of your score in Mobius for problems requiring work. Any work that does not support your answer will cause points to be deducted from the grade in Mobius. You will not receive credit for “guessing” or divine inspiration.

Your course average can be found in Brightspace under “Assessments”. Homework will be a completion grade calculated at the time of each exam. In order to earn credit for completing a section of homework, you need to earn at least 70% in Mobius. You will have four homework grades that correspond to four exams.

Having someone else do your online homework assignment and cheating on a test are both violations of the academic integrity policy and either may result in failing grades and/or being dropped from the class. Infractions such as these will be reported to the administration for tracking and possible disciplinary action.

### **Course Policies:**

Due dates for homework, quizzes, exams and discussion boards will be clearly communicated. If you fall behind, you may request an extension. As long as you don’t abuse this, I may grant the extension. I will update grades in Brightspace based upon the due dates. If you fall behind, I will record a zero for the late assignment but will change the score next time I update grades. I update grades manually, so double check your grades in Brightspace against what you see in MML to ensure there are no type-o’s. **All work must be completed by noon, the last day of class.**

### **Student Behavioral Expectations or Conduct Policy:**

“Students are expected to maintain classroom decorum that includes respect for other students and the instructor, prompt and regular attendance, and an attitude that seeks to take full advantage of the education opportunity.”

### **Academic Integrity Statement:**

It is expected that all work submitted for a grade represents your own effort. While collaboration on daily assignments is encouraged and expected, exams are to be the work of individual students. Cheating will not be tolerated in this class. If you are caught cheating, you will be removed from this class, given an F for the course, and disciplinary action (suspension) will be recommended to the Vice President of Instruction.

### **Instructor Attendance Policy:**

Make attendance a priority. Weekly activity in the course will be counted as attendance. You must spend at least six hours per week working in MyMathLab. Attendance is very important in this class. In order to receive credit for the course, you must be in attendance at least 75% of the time scheduled for the class. You MUST LOG IN to Brightspace every week or you will be marked absent. **If you fall more than two components behind, you may be dropped from the class for lack of participation.** This may happen *without warning* so plan on keeping up or working ahead. If you fall behind, you need to reach out to me with an explanation in order to avoid being dropped. **No drops will be allowed two weeks before the final for ANY REASON.**
