Methods of Teaching and Learning:

The following methods for teaching and learning will be used: personalized and individualized approach for each student depending on their concurrent college level math class

Course Objectives and/or Competencies:

Upon successful completion of this course, students will be able to successfully complete the objectives of the college math course that this supports.

Course Outline or Schedule:

CONTACT THE INSTRUCTOR FOR YOUR COLLEGE MATH COURSE.

NCBM scheduling will be customized to meet the student's remediation needs and will be a collaborative design to accommodate the schedules of the instructor and student. Contact must be made by the student on the first day of the semester and an agreement entered into by both parties.

Course Grading Information:

To receive credit for NCBM 0100, students must demonstrate mastery on competencies defined in their college math course.

The grade for the course is Credit or Non-credit and will be given to each student on the last class meeting to allow the instructor to help advise the student based on either the successful completion of the NCBM and hopefully the concurrent college math course. Students who do not earn a passing grade in their college level math course will not receive credit for the course.

Grades will be CR-Credit (Pass), W (Withdrawal), or NC (Non-Completion). If the student does not earn credit, they must then follow the guidelines for enrollment. This may include registration in developmental math before retaking the college level math class again.

Late Work, Attendance, and Make Up Work Policies:

Communication between the student and NCBM instructor is critical. Email communication may be acceptable, but the student must respond as requested by the instructor. Failure to do so may result in being dropped from NCBM and that would initiate being also dropped from the college level class.

Student Behavioral Expectations or Conduct Policy:

Students are expected to maintain classroom decorum that includes respect for other students and the instructor, prompt and regular attendance, and an attitude that seeks to take full advantage of the education opportunity. Students are expected to come to class prepared and with supplies necessary to participate actively in each class meeting.
