Office Phone Number: 254-299-8919

Office Location: Faculty Office Building (FO) 114

Student Office Hours: M/W 9:00 am – 9:30 am, T/R 11:30 am – 1:00 pm, & by appointment

- **Email** is a great option if you have a question or would like to schedule a meeting. If you email me, **please use your MCC student Gmail address** (this assures that I will receive the email and can confirm that it is really you that is emailing me) and include your name, course number, and section number. I will try to respond as quickly as possible, but in some cases (particularly if you email me during the weekend) please give me up to 24 hours to respond to your messages. Additionally, please refrain from last-minute, late-night messages and plan accordingly.
- If you would prefer to talk via **Zoom**, to make scheduling a time to meet with me easier, please click on the following link and select a time that works for you: <https://calendly.com/face-to-face-time/face-to-face-time>. After selecting a time, you will receive a confirmation email with Zoom instructions for our meeting. If none of the available times will work for you, please let me know and we can work something out!

Course Notes and Instructor Recommendations

- The Instructor Plan, assignment sheets, and other documents are available on Brightspace. Check back frequently to ensure you are up to date on course content.
- I am here to help! If you need clarification or would like me to look at a project or outline, please do not hesitate to ask. It is up to you to take initiative and ask for help. Ultimately, your course grade will be much higher if you ask for clarification on project details you are unsure about rather than hoping you understand instructions.

Assignments

Project 1: Simulated Interview

For this project, you will be paired with a partner and will conduct 2 simulated interviews. Each student will participate in one interview as the interviewer and one interview and the interviewee. Prior to conducting the interviews in class, each student will locate a job description for a job/internship they are individually interested in, prepare appropriate interview documents, and develop a schedule of questions for interviewing their partner for their selected position.

Project 2: Group Facilitation of a Meeting

For this project, you will work with a group to identify a problem that can be presented to and addressed by the class during a problem-solving meeting. During this meeting your group will provide the audience with relevant information about the problem, facilitate discussion with the class to generate potential solutions for the selected problem, and finally aid the class in reaching consensus on the best solution. For this project your group will also be preparing a meeting agenda and brief report that outlines the processes that will be used during the meeting.

Project 3: Training Presentation

For this project, you will work individually to develop a live presentation that will functionally train the class how to perform a specific action or address a problem/issue of your choice. As part of this presentation, you will use both outside support and visual aids to enhance the effectiveness of your instructional material. For this project you will also be submitting a full-sentence outline of your presentation.

Project 4: Persuasive Podcasting

For this project, you will develop, record, and edit a podcast episode designed to persuade your audience. In this podcast you will attempt to both persuade the audience on the best way to manage a specific business communication problem as well as persuade the audience to buy/support a product/service you create. Your podcast episode will be submitted remotely to Brightspace. For this project you will prepare a brief reflection paper.

*Note: More details about each of these projects, including specific guidelines and grading rubrics, will be discussed in class and available on Brightspace.

Course Grading Information:

Each assignment in this course will receive a score out of the following possible points.

- Project 1 100
- Project 2 100
- Project 3 100
- Project 4 100

Your grade for the course will be based on your cumulative score out of a possible 400 points.

- A 360 and above
- B 320 – 359
- C 280 – 319
- D 240 – 279
- F below 240

Grading Notes:

- **Completion of each of the 4 major projects is necessary** to receive a passing grade in the course.
- Since there are no exams in this course, **project grades are designed to evaluate and reflect both your performance of the required communication skills associated with the project as well as your understanding of the course concepts that relate to each project.** As a result, attention to technical project details and course concepts in your development of these projects is just as important as demonstrating/performing effective communication skills.
- Evaluation of written project documents will be factored into your total project grade.
- Assignment guidelines and grading rubrics for all projects will be available ahead of time so you can make sure you are meeting project requirements.
- While you are not graded for your attendance/participation in class (other than your daily presence being recorded for MCC attendance verification purposes), being absent from class will often lead to missing information that is critical to your overall success on course projects.
- **I do not round up grades** and **extra credit** is never offered on an individual basis. If extra credit is offered, it will be offered to the entire class. **If you need to achieve a specific grade in this class,** I highly suggest you meet with me early in the term to discuss what you will need to do rather than asking for more points later in the term.

Course Policies

Attendance, Late Work, and Make Up Work Policies

Attendance is **mandatory** and will be taken based on your presence in class and completion of required attendance associated activities and projects.

- If a student is not in attendance in accordance with the policies/guidelines of the class as outlined in the course syllabus as of the course census date, faculty are required to drop students from their class roster prior to certifying the respective class roster. A student's financial aid will be re-evaluated accordingly, and the student will only receive funding for those courses attended as of the course census date.
- Before the 60% point of the semester, a student who is absent for 25% (8) or more of a face-to-face or blended course or who misses 25% or more of assigned work for an online course will be withdrawn from the course with a grade of W. A student may also request to be withdrawn with a grade of W before the 60% point of the semester. After the 60% point of the semester, the student may request to be withdrawn if the student is passing or be assigned the final grade earned at the end of the semester after grades have been updated to reflect missing work.
- If you are absent from class and your reason for being absent is recognized by MCC as **excused**, please let me know ahead of time and email satisfactory documentation to me within 2 days of the absence. It is your responsibility to make up any course material missed.
- Regarding **late work**, it is your responsibility to make sure that your work is completed on time. Submit assignment documents early to ensure that if you experience technical issues they can be addressed before assignment deadlines. If you are not going to be able to complete a project by the scheduled due date, it is your responsibility to contact me **before the due date**. I am often willing to give students extra time for full credit, but only if they take the initiative and actively communicate with me in advance. If I do not hear from you before the due date, you will either receive a 10% penalty to your grade on the project upon completion or I will not accept your project for credit depending on the severity of project incompleteness and lack of communication.

Decorum

As an adult and college student, you are expected to present/conduct yourself appropriately. You are expected to demonstrate consistent maturity, respect, and positivity in your communication with myself and other students. As this is a shared communicative context, it is imperative that all exchanges be appropriate, civil, and constructive, and that the educational environment be tolerant and supportive. Additionally, since this is a speech course, not only will you be presenting your work in front of the class, but there will be a variety of opportunities for you to be an audience member for other members of the class. As a result, I expect you to be in class on days when you are not presenting to be an audience member for other students, and I expect you to be a respectful, attentive, and active audience member.

Academic Honesty

Academic honesty is always expected. As such, plagiarism and cheating of any kind will not be tolerated. If you are caught in the act of cheating or turn in an assignment that is plagiarized in **ANY** way, you will receive an “F” for the assignment and be prosecuted according to the full extent of MCC guidelines. Click the following link for information about academic integrity, dishonesty, and cheating.

(www.mclennan.edu/academic-integrity)

Grading Philosophy

Grades are earned by you and assessed by me based both on 1) the caliber of scholarship that is demonstrated/submitted and 2) the extent to which it meets/exceeds established criteria. Therefore, while desire, motivation and effort are all highly prized attributes often necessary for academic advancement, it is only the measurable manifestation of these qualities that I can and will evaluate.

Assignment Feedback and Grade Questions

If you would like feedback on an assignment prior to turning it in, I would be happy to look at your work. Please allow adequate time for material to be reviewed so that substantive comments can be provided. Grades and feedback will typically be posted on Brightspace within a couple days of each submission deadline (if more time is needed to grade projects, you will be notified in advance). Legitimate, substantive, and timely grade questions may be discussed privately and after at least one full day has passed since the respective graded material and feedback is returned to you. Be prepared to share with me your thoughtful, specific grade question(s) in a calm and respectful manner. An inquisitive versus accusative attitude/approach will be of much greater benefit to you.
