A student has three (3) years to complete the Vocational Nursing Program after official enrollment in the first program course.

Only one course failure or withdrawal can be repeated, and the course can only be repeated one (1) time during a three-year period. Failure or withdrawal of two program courses, failure of one course twice or two withdrawals will cause the student to become ineligible to re-enroll in the Vocational Nursing Program. If a student is unsuccessful due to failure or withdrawal during anytime of the program, the student

PEDIATRIC NURSING

may re-enter or re-apply one additional time to enter the program. If the student is unsuccessful due to withdrawal or failure during the second admission the student must wait three (3) years from the end of the second admission before applying to the Vocational Nursing Program again as a new student. (Please see Unsuccessful Completion)

The student may complete a new application after the initial three-year period ends and repeat the application process as a new student. Three (3) years will be measured from the date/year the student left the program the second time.

Due to inter-relationship of nursing courses taught each semester, if a withdrawal from one nursing course is necessary, the student must withdraw from all nursing courses.

Absence from 25 percent (25%) of scheduled **lecture and/or laboratory** meetings will be taken as evidence that a student does not intend to complete the course. Unless an instructor has reason to believe the student will complete the course, the student will be withdrawn from the course with a grade of W.
