Course Notes and Instructor Recommendations

Students enrolled in this asynchronous online course are expected to follow the attached schedule and participate and contribute daily. An online course requires more time commitment than a face-to-face course and reliable access to a computer. Technical issues from computer problems to poor Internet connectivity are not accepted as an excuse for missed or late assignments. Communication with your instructor and classmates is vital for this course and you must access and check your MCC email and Brightspace daily. Be sure to keep up with all readings and assignments in the course. If you encounter any difficulties, it is your responsibility to contact your instructor.

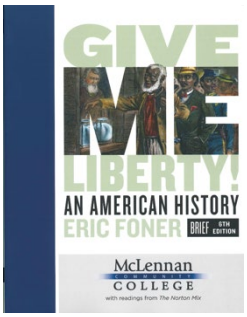

Read the syllabus completely. Ask questions if anything in the syllabus requires more explanation. The syllabus serves as the agreement for expectations and completion of the course between Dr. Driver and every student. Any changes will be communicated to students electronically. Dr. Driver is committed to student success, and believes appropriate participation and attendance achieves that goal. All students are expected to behave as professionals and demonstrate respect for themselves, fellow students, Dr. Driver, and the course, in all interactions.

An asynchronous online course has no dedicated meeting times or locations. All interactions take place via Brightspace or email.

Methods of Teaching and Learning

A variety of methods will be used in teaching United States History II online, including the use of Zoom presentations and videos, quizzes, and written assignments. Student assessment includes completion of reading quizzes and reading and written analysis of primary and secondary sources. These measures will assess critical thinking, communication, social responsibility, and personal responsibility. A departmental rubric may be used to assess different aspects of the course objectives (see below).

Course Objectives and/or Competencies

- **Critical Thinking:** Through lecture and a variety of objective strategies, students will be assessed on critical thinking ability. Objective examinations will specifically be used to assess critical thinking. Other assessment vehicles may include essays, portfolios, primary source objective exams, and presentations.
- **Communication:** Measures such as objective tests, written assignments, discussions, portfolios and presentations may be used to measure the student's ability to communicate.
- **Social Responsibility:** Because the teaching of history involves evoking examples of successes and failures in social responsibility, and the continual importance of this issue politically and personally today, social responsibility naturally is emphasized. Assessment measures may include readings, primary document exams, discussions, projects and essays.
- **Personal Responsibility:** Because the teaching of history also involves evoking examples of successes and failures in personal responsibility, and the consequences that personal choices can have, personal responsibility is also naturally emphasized. Assessment measures may include participation, readings, primary document exams, discussions, projects and essays.

Learning Outcomes

Upon successful completion of this course, students will:

1. Create an argument through use of historical evidence.
2. Analyze and interpret primary and secondary sources.
3. Analyze the effects of historical, social, political, economic, cultural, and global forces on this period of United States history.

In the case of an emergency, students will be required to provide documentation of the emergency within seven days of the stated assignment due date and the work is due within the same time frame.

Attendance is compiled with a Brightspace register designed to account for student completion of assignments every day. Students are additionally invited to email the instructor on any day and that communication may be tallied for attendance. Please review the Course Outline and Schedule for the assignments submitted to account for attendance. Missed assignments correlate to an absence.

Student Behavioral Expectations or Conduct Policy

The instructor is committed to student success and believes appropriate classroom conduct helps achieve this goal. Students are expected to behave professionally and display respect for themselves, fellow students, the instructor, and the course, in all interactions. It is the student's responsibility to track their own progress in the course, starting from successful submission of assignments, to returned feedback and grades. Course interactions may be moderated by the instructor without warning. Please direct concerns regarding course behavior to the instructor.

This is a college course. You are expected to perform professionally in your communications with and about the course and in your submitted work. You will receive the grade earned and that grade is a permanent entry included on your college transcript.

Students are expected to read the syllabus completely on day one. The instructor is not responsible for the student reading the syllabus. It is in the student's best interest to have completely read and reviewed the syllabus on day one, and to ask questions if any criteria, evaluation method, or course policy is not clear or requires more explanation for their understanding.

All correspondence between instructor and students occurs via Brightspace or MCC email. Students are required to use their MCC student email to contact the instructor. Email replies are typically provided within 24 hours throughout the week. Please respect that waiting period. Students are asked to be professional in correspondence, using salutations, and avoiding "text message" style or format. The instructor may use other communication methods where relevant or appropriate.

This course affirms people of all gender expressions and gender identities. If you prefer to be called a different name than what is on the class roster, please let me know. I will gladly honor your request to address you by an alternative name or gender pronoun. Please advise me of this preference early in the semester so I may make appropriate changes to my records.

Computer use is required for this course. This course is taught through Brightspace. The syllabus, information on assigned readings, and information on activities, assignments, and assessments are posted in Brightspace, as well as announcements and grades for assignments. I post any presented materials in Brightspace, but not notes – those are compiled through review of materials by YOU!

Attendance is required. MCC policy requires you be removed from the class if you have more than 25% unexcused absences. For this class, that equals four absences. Unless contacted before the fourth absence, you will then be dropped from the course.

McLennan Community College has a notice regarding COVID-19 at the front of every course syllabus and a plan, McLennan Together, to maintain health and safety in these unprecedented times. Please

familiarize yourself with that information and plan accordingly. Be ready for changes to the semester as deemed necessary by college administration, faculty, and staff. We are here to help you and work with you toward student success, and I urge you to follow new policies and safety measures to that goal.

Academic Integrity

Do not be academically dishonest. In any case where any action deemed to be academically dishonest is discovered or determined, the penalty for the assignment is a 0 grade, with no revision or resubmission offered. The violation will be reported and potential for harsher penalties depending on the severity of the dishonesty exists, including failure of the course. Academic dishonesty includes, but is not limited to:

- Cheating: copying answers; using unauthorized materials; stealing tests/assignments; substituting for another student.
- Plagiarism: using someone else's work, ideas, writings, etc. without giving her/him credit. Anything that is in your papers should be in your own words. It is ok to quote someone, but make sure to use quotations and cite your source.
- Collusion: unauthorized collaboration with one or more other persons on an assignment or assessment.
- Sharing one's work: any sharing of work with another classmate in any capacity will be considered academic dishonesty if it impacts either or both students' grades on assignments.

Any violation of academic dishonesty will result in a 0 for the submitted assignment and written feedback regarding the identification of a violation of academic integrity will be provided to the student.

- The Brightspace system sends submitted work through Turn It In to confirm academic integrity.
