### Course Grading Information:

Your course average can be found in Brightspace under “Assessments” and will be calculated as follows:

Discussion Board	20%
Homework (ALEKS)	20%
Modules (ALEKS)	20%
Exams (4)	20%
Final Exam	20%

I will drop your lowest discussion, homework, and exam grade. The comprehensive final exam will NOT be dropped.

### **ALEKS Homework and Modules:**

Each day, you will have to complete work in ALEKS over the textbook sections, in the form of both modules and homework. See the videos in Brightspace to learn more about ALEKS. You can earn 5 Bonus Points on each exam if all Modules and Homework covered on the exam are completed on time.

**Modules:** These are adaptive and you will be given credit for any material that you already know based on your Initial Knowledge Check. You must learn at least 70% of the topics in each ALEKS module and complete them by the due date in order to earn the bonus points on Exams. As you work in ALEKS, you will periodically receive Knowledge Checks to help you retain what you have learned and also to

personalize reviews of these topics throughout the course. Try your best on the Knowledge Checks. If you miss problems that you had previously “mastered” you will be given additional topics to practice until they are mastered. You have to get three problems **in a row** correct in order to “pass” a module. If you are “stuck” on a module, contact me ASAP for help over Zoom.

**Homework:** Homework complements the work done in modules. You will want to make sure you have mastered the modules associated with a chapter *before* you attempt the homework. Due dates are listed on each assignment. In order to earn bonus points, you must complete the work on time. You may be **dropped** for lack of participation **if you fall more than two components behind** on work.

Having someone else do your online homework assignment and cheating on a test are both violations of the academic integrity policy and either may result in failing grades and/or being dropped from the class. Infractions such as these will be reported to the administration for tracking and possible disciplinary action.

#### **Late Work, Attendance, and Make Up Work Policies:**

In order to get the most out of this class and not get confused, it is important that you not fall behind. I will not deduct points for late work but all work must be completed by the last day of class. Any missing work will be recorded as a zero. I will update grades in Brightspace (your official course grade) based upon the due dates. I will record a zero for any missing work but will update your score with what you earn the next time I update grades.

You may be dropped from the course (without further warning) for lack of online participation if you fall more than two components behind on course work. Consequently, you should plan on working in ALEKS **daily**. Research shows that successful students spend approximately 2 hours working outside of class (homework, reading, review) for every one hour in class. Since our class is a 3 hour class, you should expect to work an additional 6 hours per day outside of class time if you want to be successful. **I am able to track the time you spend working in ALEKS.**

#### **Student Behavioral Expectations or Conduct Policy:**

Online students are expected to maintain classroom decorum that includes respect for other students and the instructor, prompt and regular discussion participation, and an attitude that seeks to take full advantage of the education opportunity.
