### **Course Attendance/Participation Guidelines:**

If a student is not in attendance in accordance with the policies/guidelines of the class as outlined in the course syllabus as of the course census date, faculty are required to drop students from their class roster prior to certifying the respective class roster. A student's financial aid will be re-evaluated accordingly and the student will only receive funding for those courses attended as of the course census date.

### **Definitions**

The terminology we use is important.

Drops occur BEFORE the census date and do not count against the student's maximum withdrawal count of 6 classes, as defined by state law.

Withdrawals occur AFTER the census date and count in the student's maximum withdrawal count of 6 classes.

Faculty/Instructors process instructor-led class drops and withdrawals for their classes. Students who desire to be reinstated into a course must contact the course instructor to determine whether the student is eligible for reinstatement. The decision of the course instructor regarding whether or not a student will be reinstated is final.

### **Online & Hyflex Course Attendance Policy (Business Division)**

To be counted as attending BEFORE the census date, a student must complete and submit at least ONE assignment. Discussion boards, syllabus quizzes, the first set of homework, etc. are considered as meeting the criteria for an assignment. An email to the instructor does NOT count. Logging into Brightspace and accessing content does NOT count. Any student who fails to complete and submit at least one assignment prior to the census date will be dropped from the course.

Past the census date, students who fail to submit two consecutive weeks of work without notification of an excused absence as per MCC policy prior to the 60% point of the term may be withdrawn from the course. If a student completes any part of a work module, they have "attended" and will not be withdrawn. If a student fails to submit two consecutive weeks of work without notification of an excused absence as per MCC policy and the class is past the 60% point of the term, the instructor will NOT withdraw the student. The student will be assigned the grade earned at the end of the term.

### **Course Outline or Schedule:**

***The instructor reserves the right to change course policies, deadlines, assignments, or exams at their discretion with the proper notice.*** See the last 3 pages of this instructor plan for the detailed schedule.

Course assignments, activities, and discussion board participation will be graded and a grade released within two (2) calendar weeks of the assignment's due date. Any student without a submission on the due date will be assigned a zero (0) grade. The late work policy below establishes whether late work for unexcused absences will be accepted, any penalization that occurs due to the submission of late work, and how/when the grade will be updated.

A grade of Incomplete (I) will only be issued for students who need only to take the final exam and have an extenuating circumstance that resulted in an excused absence (documentation must be provided) for the day of the final exam.

**Late Work and Make Up Work Policies:**

-All assignments accepted late will have a late penalty of 10% per day.

Weekly attendance will be based on assignment completion. If you complete at least one assignment each week, you will be counted present for that week. If do you not complete any assignments for a particular week, you will be counted absent for that week.

**Student Behavioral Expectations or Conduct Policy:**

Please be respectful of other view points in the discussion boards. There is a high likelihood you will disagree with some of the opinions that are shared. It is ok to disagree with someone, but please don't attack anyone personally.

**Artificial Intelligence (AI) Statement:** Any work written, developed, produced, or created using artificial intelligence (AI) is considered plagiarism and is not tolerated. Certainly, there is a time and place for its use; however, in terms of learning and education it circumvents the learning process by artificially creating work that robs the learner from the opportunity to do so. If you have any questions as to what qualifies as artificial intelligence, then please direct your questions to your instructor. For this class, the use of AI is NOT permitted.

**Use of Turn-It-In for Ensuring Academic Integrity**

***Turnitin*** (<https://www.turnitin.com/>): In order to help students learn proper composition skills and to promote academic honesty, this class may use the services provided by Turnitin (hereinafter, the "Service"). The above URL contains information about the capabilities, services, terms and conditions, and privacy policy of the Service. Faculty may use the Service to review all submitted assignments.

## BUSINESS ETHICS

BMGT 1341.O280

---

Students agree that by taking this course all required papers may be subject to submission for textual similarity review to Turnitin for the detection of plagiarism. All submitted papers will be included as source documents in the Turnitin reference database solely for the purpose of detecting plagiarism of such papers. Students further understand that if the results of the review support an allegation of academic dishonesty, the students' work will be investigated and the student is subject to discipline according to policy.
